

Collaboration Portfolio Features

Capitalized terms, unless defined in this document, have the meaning in the Cisco Enterprise Agreement 3.0 Program Terms - End Users.

The Collaboration Portfolio includes the Webex Suite, a purpose-built, best-of-breed suite for hybrid work.

You are required to cover Your entire enterprise (all Knowledge Workers), with a minimum of 250 Knowledge Workers to access the Suites in the Collaboration Portfolio.

1. Full Commit Suite Requirements

Solution	Suite	Full Commit Spend	Add-ons
Webex	Collaboration - Webex Suite - Webex Calling - Customer Assist - Calling	250 Knowledge Workers	Webex Calling, Unified Communications Manager On-Premises Calling, Webex Calling Dedicated Instance, Enhanced Survivability for Webex Calling Dedicated Instance, Call Manager Express, Webex Audio, Real-Time Translations, Webex Edge Connect, Local Gateway, Webinars, Extended Security Pack, Virtual Connect for Dedicated Instance, Partner Connect for Dedicated Instance, Partner Network Connect, Direct Customer Connect, Video Integration for Microsoft Teams (VIMT), Webex Calling Workspace for Common Area, On-Premises Common Area, On-Premises Access, On-Premises Video Device Registration, CUBE, and Cloud Calling Setup Assist (One-Time Charge)

A single Webex Calling Dedicated Instance may be selected with 1000 Knowledge Workers (KWs) at no additional cost. Additional geographies can be purchased. End users with fewer than 1000 KWs can purchase a Dedicated Instance without incurring any additional fees.

2. Growth Allowance and Initial Growth Cap

Certain Full Commit Suites in the Services Portfolio, as indicated in the table below, include Growth Allowance and are subject to Initial Growth Cap. For these Full Commit Suites:

- 2.1 If Your Use of a Suite or Add-On at any time during the first six months of the Suite Term exceeds 105% of Your initial Entitlement (“Initial Growth Cap”), then Cisco has the right to initiate a True Forward at the next quarterly anniversary of the Initial EA Order.
- 2.2. Following the first six months of the Suite Term, You may Use up to 115% of Your initial Entitlement of a Purchased Suite without incurring any additional fees (“Growth Allowance”). If Your Use is greater than the Growth Allowance, Cisco will charge Your Approved Source only for the Use above the Growth Allowance threshold at the time of Your next True Forward.

3. Portfolio Features

Solution	Suite	Included licenses	Meter	Full Commit Availability	Partial Commit Availability	5% Initial Growth Cap	15% Growth Allowance	Intra Suite Value Shift	Cross Suite Value Shift
Webex	Collaboration o Webex Suite	Webex Calling, Unified Communications Manager On-Premises Calling, Webex Meetings, Webex Apps, Webex Webinars, Webex Events	Deployed Knowledge Worker	✓	✗	✓	✓	✓	✗

		On-Premises Common Area		✓	✗	✗	✗	✗	✗
		On-Premises Access		✓	✗	✗	✗	✗	✗
		On-Premises Video Device Registration		✓	✗	✗	✗	✗	✗

		CUBE		✓	✗	✗	✗	✗	✗
		Cloud Calling Setup Assist (One-Time Charge)		✓	✗	✗	✗	✗	✗

*Collaboration is a Full Commit Suite purchase only.

4. Applicable Meters

Knowledge Worker means an employee or contractor who utilizes devices capable of running the applicable Cisco Webex software, Cloud services, or related browser plug-ins as part of their job duties.

Deployed Knowledge Worker means a Knowledge Worker who has a profile configured within the installed Cisco Technology provisioning platform and associates that profile with the applicable desk phone, any Jabber client, any Webex app client, mobile phone, video Device, or personal computing Device, as applicable.

OD means Offer Description, which is available at <https://www.cisco.com/c/en/us/about/legal/cloud-and-software/software-terms.html>
