Why Partners Win with Early Firewall Refresh

Early refresh boosts partner profit, opens doors for new services, and locks in customer loyalty.

Profitability

- Refreshing hardware early leads to increased bookings for both equipment and subscriptions, rather than waiting for renewal cycles.
- Partners can access greater discounts and rebates through refresh promotions—such as the Firewall Loyalty Discount.
- Securing refresh business early helps capture more customer spend before competitors have the opportunity.

Service Growth

- Refreshing environments creates opportunities for migration, configuration, managed services, training, and additional value-added offerings.
- Modern platforms deliver advanced features like Cloud Management, XDR, ZTNA, logging, Workload Security, and Multicloud Defense.
- These enhancements drive demand for integration projects, ongoing monitoring, and additional upsell opportunities.

Stronger Customer Relationship

- Engaging early allows partners to be seen as trusted advisors rather than reactive sellers.
- Proactive refresh management prevents issues, reduces downtime, strengthens relationships, and simplifies renewals.
- Modern platforms align partners with customers' long-term security goals, boosting retention and long-term value.

What is the LDoS Timeline on current Firewalls?

Suggested Hardware Replacement

Series	Model	FW+AVC+IPS Throughput (gbps)	Migration Type

Theme	Key features	7.2	7.3	7.4	7.6	7.7	10.0
Security Efficacy	Detect malware in encrypted traffic (TLS 1.3) with EVE	✓	✓	✓	✓	✓	✓
	Align security policy to <u>MITRE</u> framework using built-in enrichment		✓	✓	✓	✓	✓
	Improve performance by optimizing traffic routes according to policy			✓	✓	✓	✓
	Block malware hidden in encrypted traffic with EVE 2.0			✓	✓	✓	✓
	Decrypt QUIC protocol, which has built-in TLS encryption				✓	✓	✓
	Gain 24x7 threat monitoring with SnortML detection for 0-day attack variations				✓	✓	✓
	Optimize inspection with decryption bypass for low-risk or known traffic					✓	✓
	Meet compliance with ability to block remote access by location/region					✓	✓
	Defend against command injection attacks with SnortML						✓
Operational Efficiency	Bypass inspection of trusted, expected large traffic flows	✓	✓	✓	✓	✓	✓
	Auto-scale virtual firewalls and cluster up to 16 firewall devices	✓	✓	✓	✓	✓	✓
	Auto-create VPN tunnels for secure connections between sites		✓	✓	✓	✓	✓
	Automate setup and configuration for firewall registration			✓	✓	✓	✓
	Set up branches faster with SD-WAN tool and pre-configured firewall templates				✓	✓	✓
	Automate policy management by discovering shadow, legacy, duplicate rules using AI Assistant				✓	✓	✓
	Make changes directly on hardware even when it's offline, and auto sync those changes to FMC later					✓	✓
	Save time with upgrades now 3x faster, with fewer clicks, under 30 min					✓	✓
	Achieve better threat insights by automatically forwarding security log data from Secure Firewall to Splunk						✓
	Save time by using built-in migration wizard to transfer device-specific configs to new devices*						✓

FY26 Firewall Loyalty Promotion

Requirements:

- Customer with these firewalls - 5506, 5508, 5516, 4110, 2100 series, 4100 Gen2 series, SM40, 48, 56.
- Must buy 1200, 3100 or 4200 series hardware, subscription (minimum 3Y TMC), Solution Support Service on hardware (minimum 3Y)
- Available only through Deal Registration in CCW using promo code.
- Success Tracks are optional
- If Partner, subject to Cisco AM validation/approval

Customer Incentives:

- 80% Hardware Discount
- 80% TMC Subscription Discount (Min. 3 Yr)
- 67% Discount on Solution Support Services (Min. 3 Yr)
- 80% Discount on Cloud Management
- Secure Access promotion already exists (80% off)
- Subscription Portability Credit if Approved by Finance

Active Subscription with EoS
Firewall

Refresh vs Renewal

Other firewall promotions

Targeted Competitive Firewall Promotion

Objective: Provide a highly discounted offer for partners focusing on competitive replacements with Cisco firewalls.

Action Plan: Provide additional discount to Select+ partners on Firewall deal registration for competitively held accounts, validated by the Cisco Competitive Win Center (CWC)

Up to 85% discount on Firewall for competitively held accounts

Resource availability for Competitive Win Center collateral

Requirements:
Purchase of hardware, software and services together

Process Flow:

Hybrid Mesh Cloud Suite Promotion

Objective: To position Cisco Firewalls as the network security solution choice for end customers that are purchasing Cisco Cloud Protection suite.

Action Plan: Discount incentive for select firewall models, software, and support services for customers that purchased Cloud Protection Suite Essentials Gateway or Segmentation License.

80% discount for firewall*
75% discount on eligible firewall support services

Promotion requires deal registration

*select models and software when purchasing Cloud Protection Suite Essentials Gateway or Segmentation License

Requirements:

- Mandatory purchase of eligible firewall appliance and TMC license
- Minimum 3YR term on Cloud Protection Suite and Firewall Software /Services
- Optional Purchase of CDO, Extended Logging.
- Mandatory purchase of one of the following:
 - 100 Cloud Protection Suite Essentials Gateway
 - 2500 Cloud Protection Suite Essential Segmentation
