

Clean design and uncluttered user interface.  
Unbeatable video quality and audio with incredible fidelity.  
Seamless integration across all platforms.  
There's a word for how amazing features like these are:

# Webexceptional

## Webex Meetings Redesigned & Reimagined

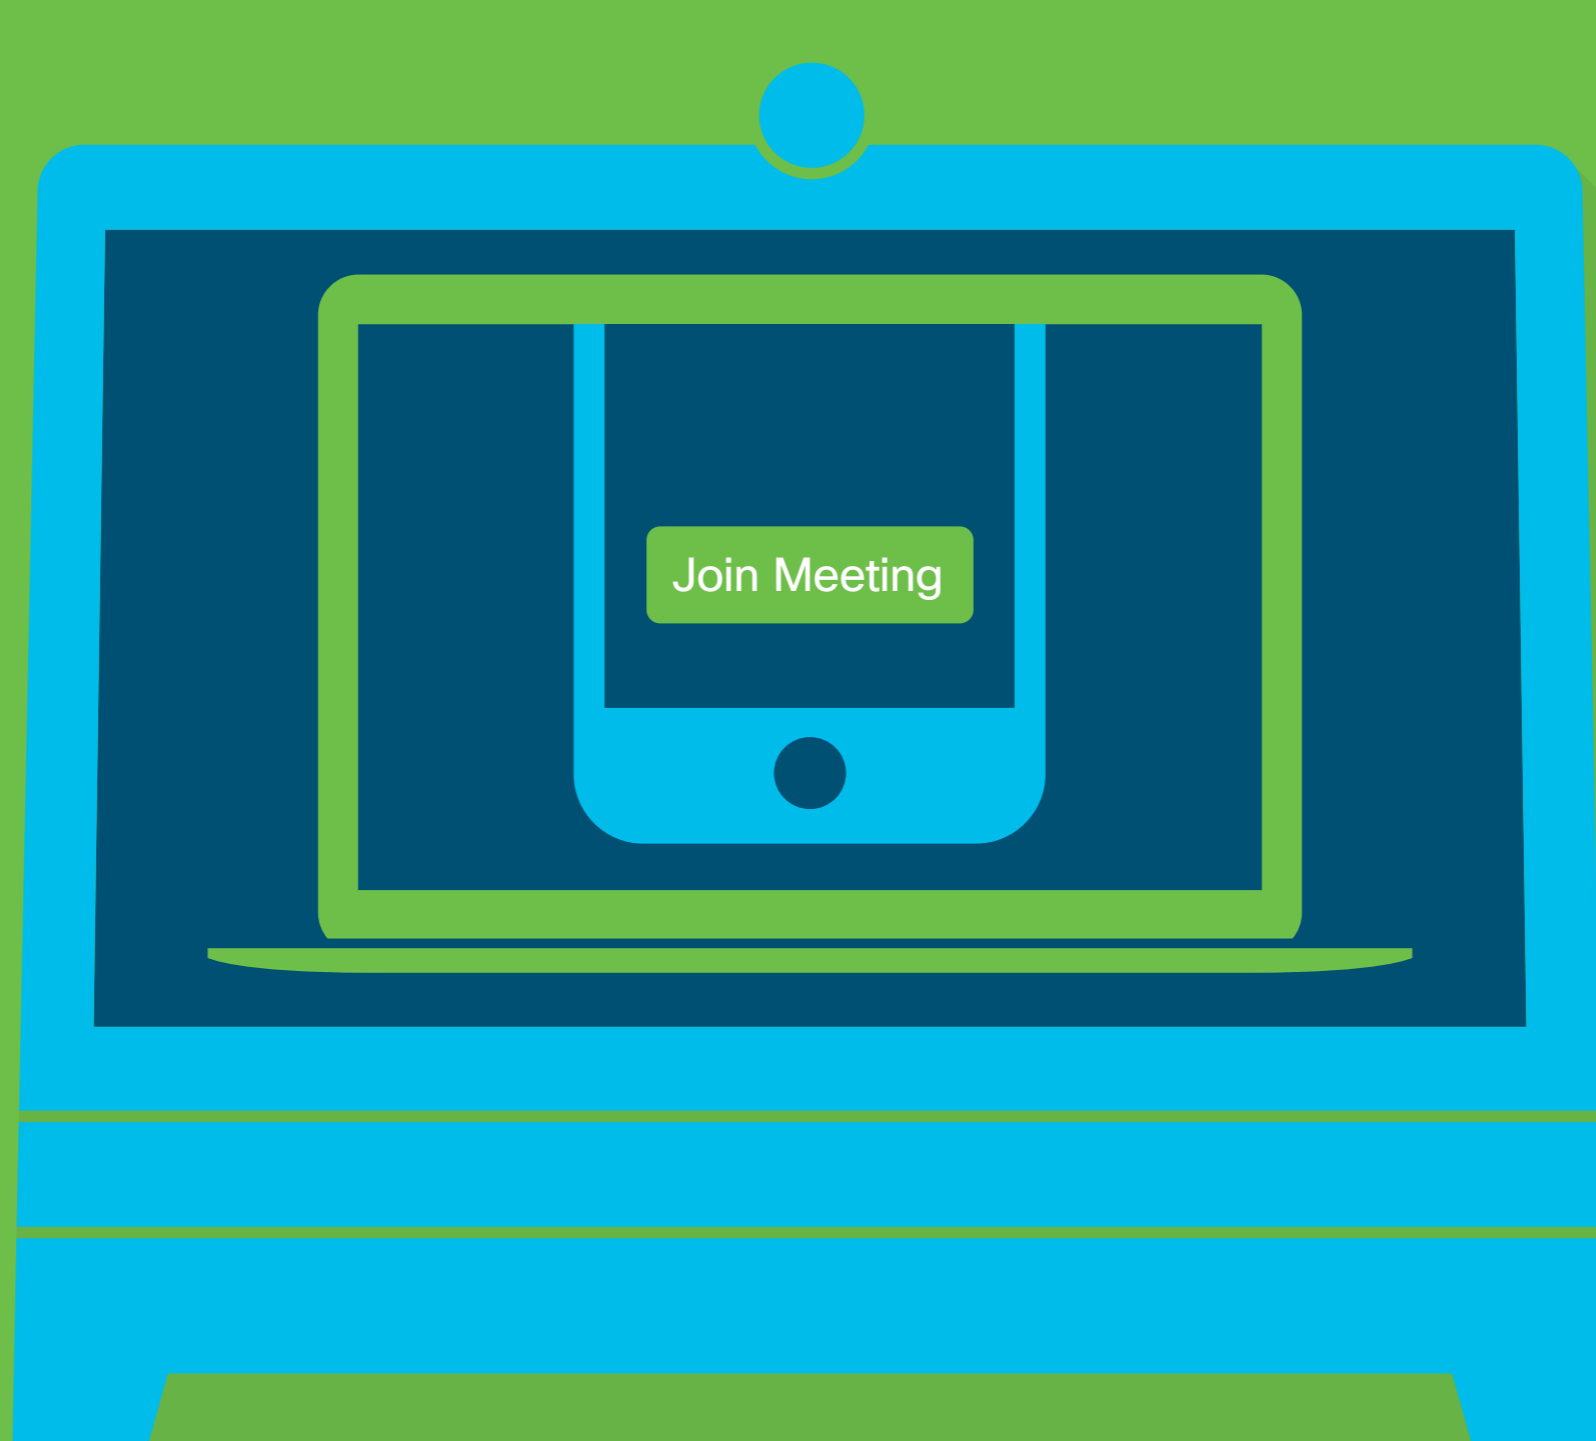

The new Webex Meetings is built on how you work, and how we can help you work even better. With its fresh and intuitive experience, scheduling, joining, presenting and collaborating is quicker and simpler. Consider it the solution you need to make everyone's job so much easier.

## 6 Billion Minutes\*

You read that right. Every month, countless collaborations run on Cisco Webex Meetings. In fact, 95% of the Fortune 500 use Webex Meetings to handle the most cutting-edge business around. It's probably why Cisco was named a Leader in the Gartner Magic Quadrant for Meeting Solutions 2018, placing highest in the ability to execute and furthest in completeness of vision. With us, the conversation never stops.

## Smooth Operator

From desktop to mobile, huddle room to board meeting, and everywhere in between, the new Webex Meetings seamlessly serves teams and their needs. With one simple touch of a button, no plug-ins and no time wasted, it's the kind of setup that helps you stay focused on what really matters: driving your business goals at every turn.

## Let's Collaborate

Your business deserves technology that pushes teams forward, not holds them back. You deserve solutions that amplify productivity and make the best use of your network. You can do both with Cisco Webex Meetings.
