

Meet with Anyone, Anywhere – Securely

Cisco WebEx Meeting Center: A FedRAMPSM-Authorized Service

Cisco WebEx[®] Meeting Center: A FedRAMP-Authorized Service allows you to:

- Securely collaborate with constituents, internal teams, and with other government agencies
- Share information and ideas with teams anywhere, globally; all you need is Internet access
- Save time and take full advantage of resources by bringing people together without the need for travel
- Stay connected anywhere with a rich meeting experience even on your mobile device
- Make meetings truly engaging and productive with integrated high-definition video, audio, and content sharing
- Feel confident that US Government data is contained in US Data Centers which are accessed by US citizens only

Be more productive, collaborative, and get more done faster using Cisco WebEx Meeting Center—the proven industry leader in web and video conferencing. As a FedRAMP-Authorized Service, you can use Cisco WebEx to hold regular meetings with anyone – regardless of location. Manage projects, host meetings, and make faster, more informed decisions by keeping everyone on the same page with meetings that allow everyone to see, hear, and view the same information at the same time. And host engaging and creative sessions with colleagues, internal teams and other agencies.

Meet Online Just as If You Were Face to Face

Use high-definition video to improve communications, relationships, and productivity by enabling people to meet face-to-face to share documents, presentations, and applications. Anyone you authorize to collaborate with can join the meeting by phone or integrated audio on their computer, regardless of the location. Launch or join a meeting using a web browser, mobile phone, or tablet device.

Count on Cisco for Highly Secure, Scalable, and Reliable Service

Cisco WebEx web and video conferencing solutions help reduce costs and improve efficiency. As a FedRAMP-Authorized Service, Cisco WebEx Meeting Center is delivered as software as a service (SaaS) through the Cisco Collaboration Cloud, and is easy to roll out and scale as the organization grows.

The Cisco Collaboration Cloud is an enterprise-scale network designed specifically to provide highly secure on-demand conferencing capabilities.

It offers a scalable architecture, consistent availability, and multilayer security which is validated and continuously monitored to the rigorous government standards of FedRAMP.

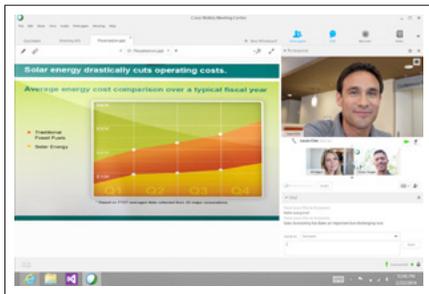

Additionally, Cisco WebEx service datacenter operations holds SOC 2 Type II attestation and ISO 27001 compliance.

Make Online Meetings Easy and Productive with These Powerful Features

Document, Application, and Screen Share

Share content or your entire screen with remote attendees in real time. Pass control to attendees so they can share content, or annotate yours. Figure 1 provides an example of content being shared with the active speaker and other meeting attendees.

Figure 1. Content Sharing During a Meeting

Interactive Multimedia Experience

Engage your audience by incorporating multimedia into your presentations, including PowerPoint, audio, and video files.

Integrated Video

View videos from up to seven attendees. Or select full-screen mode to view the active speaker in the main video panel, with other participants' video displayed as thumbnails. And for the most detailed video view, select the expanded full-screen option to view the active speaker in true high-definition, 720p display resolution. Figure 2 demonstrates full-screen mode. The video in the main panel automatically switches to display the person who is speaking, creating an intuitive meeting experience.

Cisco WebEx Meeting Center is updated regularly to meet the latest system compatibility needs. Please visit webex.com to see system requirements.

Languages supported include English, Brazilian Portuguese, Chinese (simplified and traditional), Dutch, European Spanish, French, German, Italian, Japanese, Korean, Russian, Spanish, and Swedish.

Personal Rooms

Meet even faster in your own permanent, personalized video conferencing space. Schedule ahead or leave your door open and let people drop in.

Figure 2. View of Full-Screen Mode

Audio

Provide an interactive meeting experience with Cisco WebEx Audio, with toll or toll-free call-in or call-back. Or give attendees the option to connect using voice over IP (VoIP) on their computer or mobile device. Wideband audio support using VoIP provides outstanding audio quality – even over low bandwidth networks.

Call-Me

Have your meeting call you. Simply enter your phone number when the meeting begins and the meeting calls you – no dialing, no passcodes.

Active Speaker

Focus on who's talking with active speaker technology, which automatically displays the current speaker's video in the active speaker window.

Meeting Recording, Editing, and Playback

Record meetings for future reference, training, or demonstrations.

Desktop Integration Suite

Initiate meetings from Microsoft Office or Outlook and Lotus Notes.

One-Click Meeting Access

Start a meeting and invite attendees instantly from your desktop, taskbar, or favorite applications.

Easy Meeting Invites

Send invitations and reminders using an automated phone call, text message, or email from your local client.

Single Sign On

Use single sign-on (SSO) to facilitate multi-factor authentication requirements.

Cross-Platform Support

Meet with others using common operating system platforms, including Windows, Mac, iOS, and Android.

Mobile Support

Enjoy a rich meeting experience with audio, video, and content sharing across Android, iPhone and iPad devices.
