

Take Your Place in the Growing Field of Cybersecurity

The #1 worry of CEOs? Cybersecurity¹

And the sophistication, stealth, and frequency of threats continue to increase

The complexity of attack means every organization needs security expertise **before, during, and after an attack**

And security responsibilities and skills continue to evolve

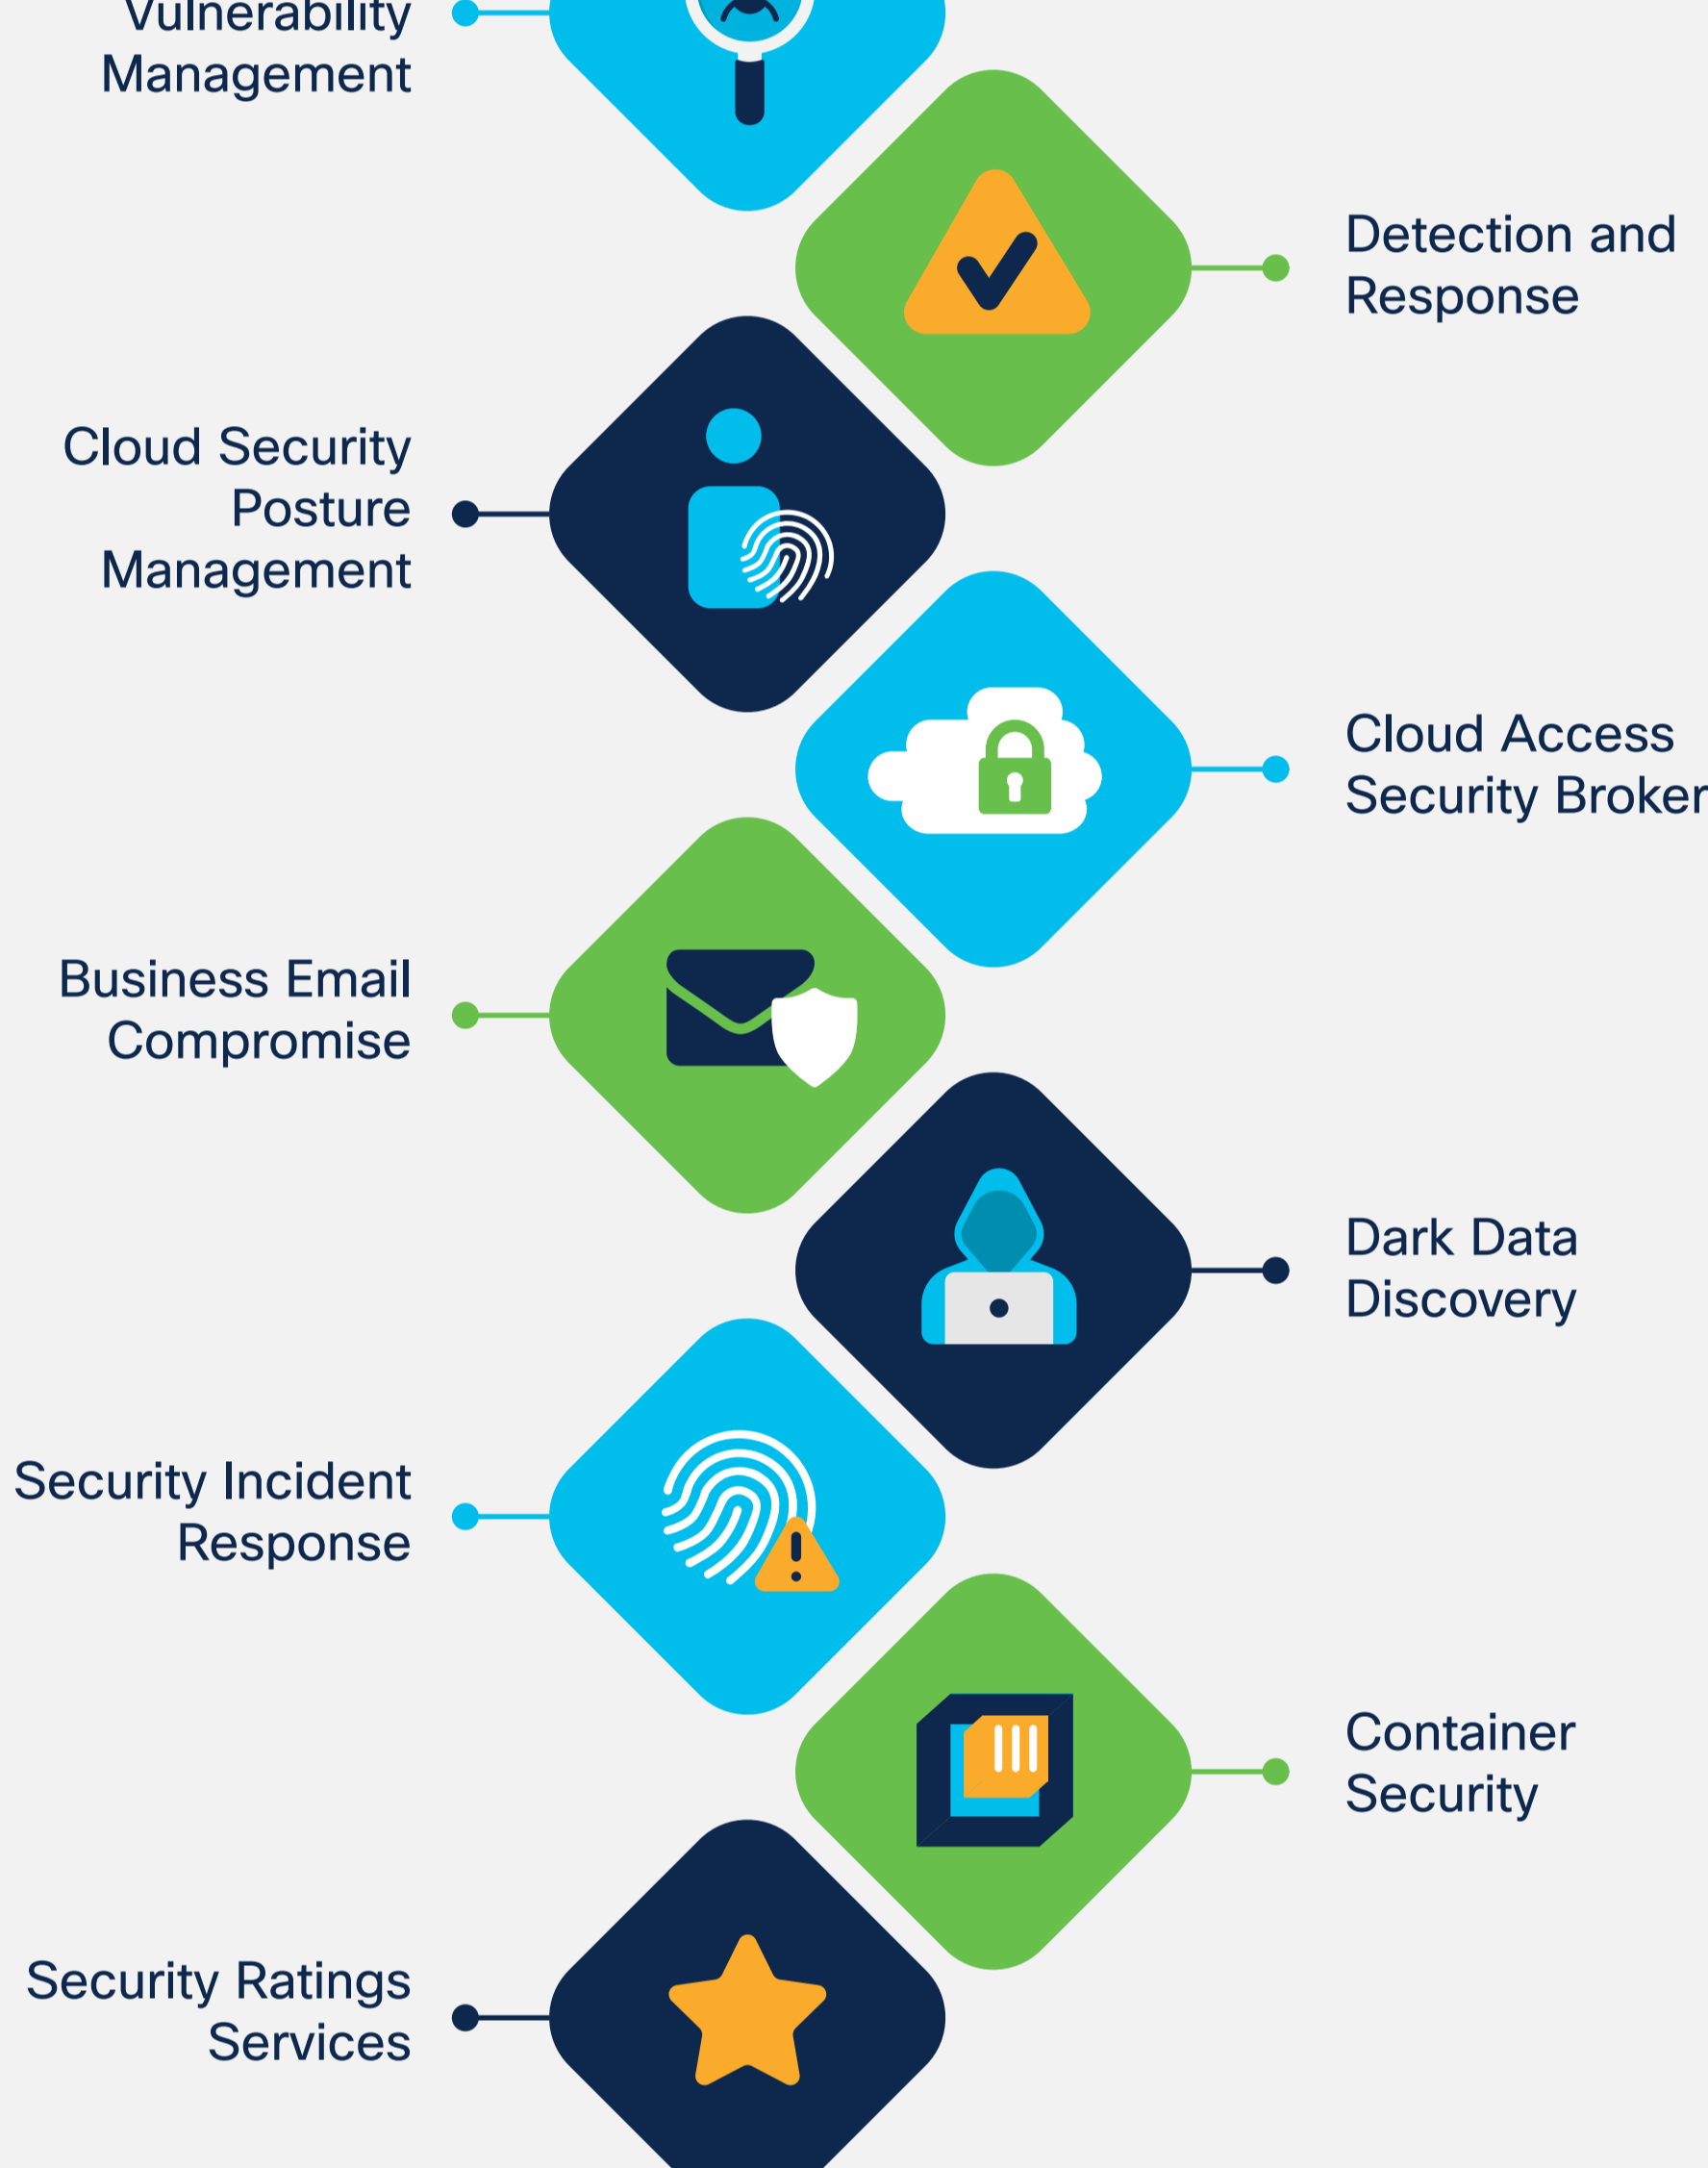

But job opportunities outpace the number of qualified candidates

The security field is full of interesting projects and challenging work

Top 10 security projects⁶

And security professionals can find rewarding opportunities all over the world

Average Cybersecurity/IT Security annual salaries⁷

Cisco® training and certifications can help you build real-world, cutting-edge skills for your career in security

6 out of 10 security jobs request a certification⁸

- Certification for any level of security expertise** so you show the world you know your stuff no matter where you are in your career
