

Driving resilience with assurance and visibility from edge to cloud

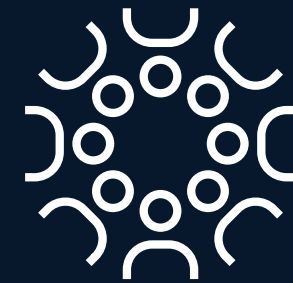

Jonathan Zarkower
Product Marketing Manager
Cisco ThousandEyes

Proactive operations, resilient experiences

**AI-driven incident
management**

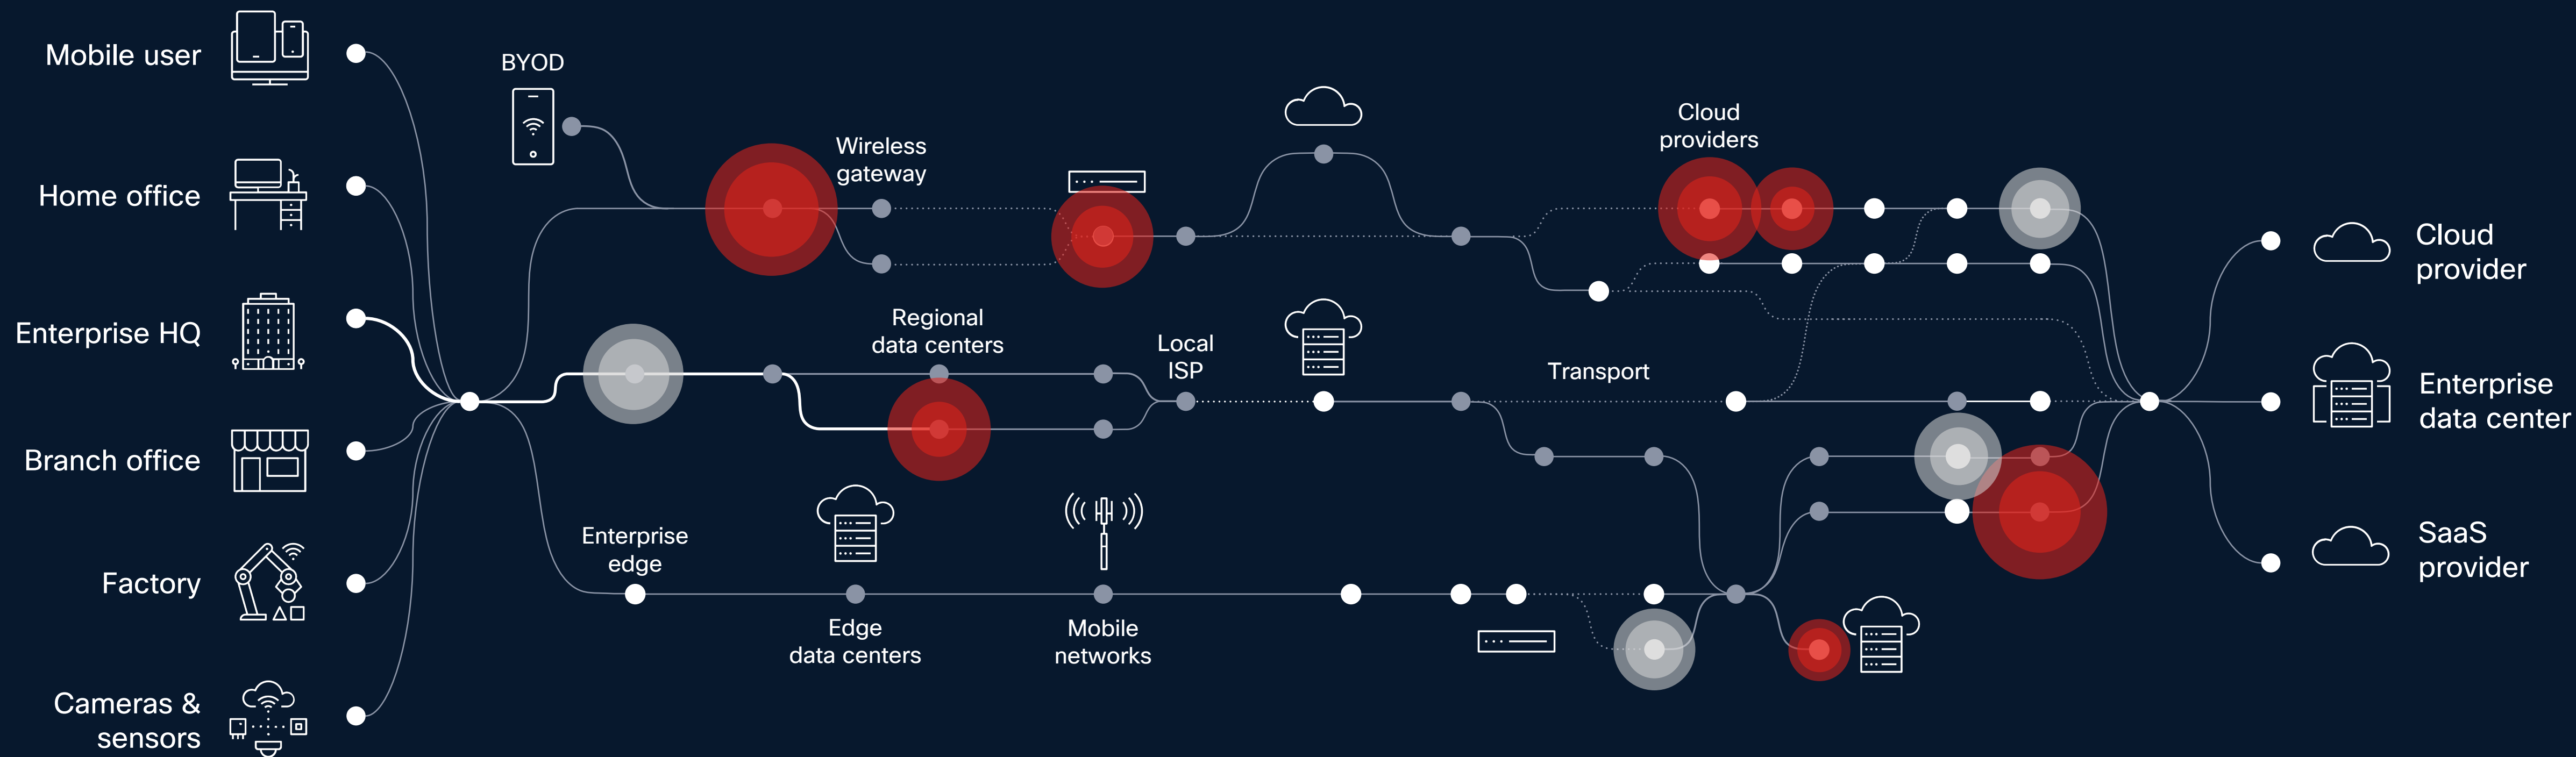

**Unified end-to-end
visibility**

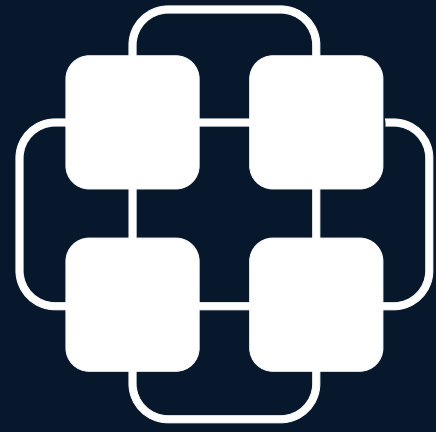

**Enhanced efficiency
and collaboration**

Digital experiences span owned and unowned environments

Silos of people, tools and data increase complexity | AI-powered workflows introduce new demands

Most teams have siloed visibility

Applications

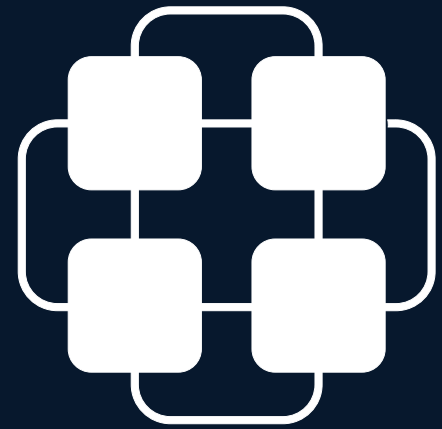

Infrastructure

Networks

Most teams have siloed visibility
