Security for Agents

Protect the agents
from the world

**Protect the world
from the agents**

Detect and respond
at machine speed

Agents everywhere

Fragmented Enforcement

Unpredictability

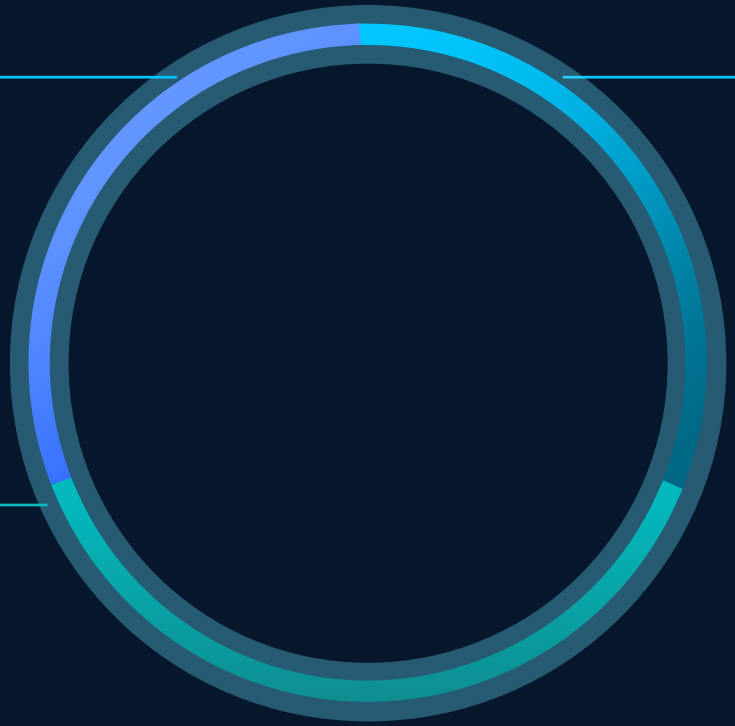

Agents everywhere
No inventory = No accountability

33%

Agents built using third-party platforms (e.g., AWS AgentCore)

30%

Desktop agents created with low-code / no-code tools (e.g., ChatGPT, Claude)

37%

Custom-built agents deployed across public or private cloud

83%

Agree that business units are deploying agents faster than security team can support
