Forward-looking statements

This presentation may contain forward-looking statements that are subject to the safe harbors created under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts are statements that could be deemed forward-looking statements. These statements are based on current expectations, estimates, forecasts, and projections about the industries in which we operate and the beliefs and assumptions of our management based on the information currently available to us. Words such as "expects," "anticipates," "targets," "goals," "projects," "intends," "plans," "believes," "momentum," "seeks," "estimates," "continues," "endeavors," "strives," "may," variations of such words, and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to (1) our goals, commitments, and programs; (2) our business plans, initiatives, and objectives; and (3) our assumptions and expectations, including our expectations regarding our financial performance, products, technology, strategy, customers, markets, acquisitions and investments are forward-looking statements.

These forward-looking statements are not guarantees of future performance and involve significant risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from results, performance or achievements expressed or implied by the forward-looking statements contained in this presentation. Readers are cautioned that these forward-looking statements are only predictions and are subject to risks, uncertainties, and assumptions that are difficult to predict, including those identified in the "Risk Factors" section of Cisco's most recent report on Form 10-Q filed on February 20, 2025 and its most recent report on Form 10-K filed on September 7, 2023, as well as the "Risk Factors" section of Splunk's most recent report on Form 10-Q filed with the SEC on November 28, 2023. The forward-looking statements made in this presentation are made as of the time and date of this presentation. If reviewed after the initial presentation, even if made available by Cisco or Splunk, on Cisco or Splunk's website or otherwise, it may not contain current or accurate information. Cisco and Splunk undertake no obligation to revise or update any forward-looking statements for any reason, except as required by law.

In addition, any information about new products, features, functionality or our roadmap outlines our general product direction and is subject to change at any time without notice. It is for informational purposes only and shall not be incorporated into any contract or other commitment or be relied upon in making a purchasing decision. We undertake no commitment, promise or obligation either to develop the features or functionalities described, in beta or in preview (used interchangeably), or to include any such feature or functionality in a future release. The development, release, and timing of any features or functionality described for our products remains at our sole discretion. Splunk and Splunk> are trademarks and registered trademarks of Splunk Inc. in the United States and other countries. All other brand names, product names, or trademarks belong to their respective owners.

Cisco

Enterprise Security

Two editions — one platform

Essentials

- SIEM
- Detection Studio
- TIM
- Exposure Analytics
- AI Assistant

AI AGENTS

- Detection Builder
- SOP

Premier

Everything in Essentials, plus:

- SOAR
- UEBA
- Attack Analyzer

ADDITIONAL AI AGENTS

- Triage
- Guided Response
- Malware Reversing
- Automation Builder
- Connector Builder
- AI SOC Analyst

Customers with Premier edition have all features included in Essentials.

Cisco

ES Premier 8.7

What the demo covers

AI SOC Analyst

Investigation to response at machine speed — execute permitted actions, recommend next steps when approval is required, and complete response tasks from plan context.

PREMIER

Connector Builder Agent

Generate, test, and refine connectors with AI — expand automation coverage across more tools.

PREMIER

Automation Builder

Improved playbook session and ES finding context — apply and verify changes more accurately.

ESSENTIALS & PREMIER

Detection Builder

Improved reliability and SPL guidance when creating and refining detections.

ESSENTIALS

Navigation & history

Customizable nav icons and streamlined analyst queues. SPL change history via Activity Log.

ESSENTIALS

Cisco

Takeaways

Leader in SIEM. Built for what's next.

- **Accelerate with AI**

  Fully autonomous where you want it, human in the loop where it matters.
- **AI runs on data**

  No one knows data better than Splunk.
