

Introduction to Cisco AppDynamics APM (APM211)

Description

The **Introduction to APM for Cisco AppDynamics (APM211)** training provides an overview of Cisco AppDynamics and introduces you to the key features of the Application Performance Monitoring (APM) platform. Once you know your way around, you'll learn to troubleshoot common performance issues in your application, as well as several advanced troubleshooting tools and techniques. You'll also get familiar with some powerful monitoring tools that will help you keep your application running in top form. This training is the FIRST in a learning series for APM Fundamentals.

This training also earns you 5 Continuing Education (CE) credits toward recertification.

Outline

- Introduction to Cisco AppDynamics and APM
- Enterprise Topology and Cisco AppDynamics
- The Application Dashboard
- Business Transactions and Transaction Snapshots
