

Reporting Cisco Contact Center Enterprise (CCER)

Description

The **Reporting Cisco Contact Center Enterprise (CCER)** training provides an architectural overview of the Contact Center Enterprise (CCE) Solution components and deployment models. You will learn the end-to-end reporting solutions of CCE designed to assist customers and partners in the task of creating reports and managing disparate data sources. The training explains the nuances of analyzing and troubleshooting in various deployment scenarios: Designed Tier 2/Day 2 Support. The Cisco CCE solution helps businesses deliver a connected digital experience, enabling you to provide contextual, continuous, and capability-rich journeys for your customers, across time and channels. The training teaches you the business application of the CCE solution providing the framework of interrelationship between both core and optional components required to configure the CCE solution.

This training also earns you 12 Continuing Education (CE) credits toward recertification.

How you'll benefit

This training will help you:

- Consolidate disparate data into manageable, comprehensive reports
- Understand the business application of the CCE solution and how it provides a framework of correlation between core and optional components
- Earn 12 CE credits toward recertification

Who should enroll

- Administrators
- Business Liaisons
- Deployment Engineers
- Managers overseeing CCE deployments

Technology areas

- Collaboration

Objectives

- Explain the Cisco Unified Intelligence Center including the benefits and features of the system and describe the high-level architecture of Cisco Unified Intelligence Center in the UCCE environment
- Understand the Cisco Unified Intelligence Center administration console to perform Cisco Unified Intelligence Center administrative, maintenance and provisioning functions
- Discuss the functional attributes of the Cisco Unified Intelligence Center
- Customize Cisco Unified Intelligence Center Reports and Views

Prerequisites

There are no prerequisites for this training. However, the knowledge and skills you are recommended to have before attending this training are:

- Basic knowledge of computer networking components: Windows Active Directory (AD) SQL Server and components (servers, routers, switch) is helpful but not required
- Understanding of Cisco Packaged Contact Center Enterprise components and call flows
- Experience administering Cisco Packaged Contact Center Enterprise

These skills can be found in the following Cisco Learning Offerings:

- [Understanding Cisco Contact Center Enterprise Foundations \(CCEF\)](#)
- [Administering Cisco Contact Center Enterprise \(CCEA\)](#)
- [Implementing and Administering Cisco Solutions \(CCNA\)](#)
- [Understanding Cisco Collaboration Foundations \(CLFNDU\)](#)

Outline

- Cisco Unified Intelligence Center Foundations
- Cisco Unified Intelligence Center - Basics
- Cisco Unified Intelligence Center - Deployment Models
- Cisco Unified Intelligence Center Administration and Operations Console
- Operations Console (OAMP) Console Introduction
- Admin User Management
- Cisco Unified Intelligence Center Attributes
- Stock Reporting
- Dashboard Features
- Cisco Unified Intelligence Center Custom Reports and Views
- Creating Views
- Building Report Definitions

Lab Outline

- Exploring Cisco Unified Intelligence Center (CUIC) OAMP
- Working with Stock Reports
- Working with Dashboards
- Value Lists and Collections
- Exploring Supervisor Defaults
- Using Groups
- Editing Report Views Pt 1 of 2

-
- Editing Report Views Pt 2 of 2
 - Report Definitions and Drilldowns
 - Create Custom Route Call Detail (RCD) Report Definition (Database Query) and Report
 - Value Lists and Drilldowns
