Cisco Digital Learning Data Center

An investment in your data center infrastructure

Product overview

Data center professionals face an ever-increasing and evolving set of responsibilities. And providing them with the right tools and in-house training is the only way to stay ahead of this critical component of your business.

Cisco Digital Learning Data Center offers a subscription to all our online data center certification, product, and technology training. This comprehensive subscription offers full-length, interactive certification courses, additional product and technology training with labs, and thousands of reference materials. And we update content on a regular basis, adding new and revised versions of existing courses as they are made available.

Benefits

• Accelerate in-house expertise
• Increase your team’s ability to deploy and support data center infrastructure
• Support career paths for your team with access to Cisco® data center certification courses
• Redeem Cisco Learning Credits to pay for your subscription

Interactive, flexible, convenient

Cisco Digital Learning Data Center offers full-length, in-depth certification courses with hands-on labs. You’ll also have access to a collection of just-in-time content, including best practices, design guides, and webinars.

Here are some of the courses included in your subscription:

- Implementing and Operating Cisco Data Center Core Technologies (DCCOR)
- Designing Cisco Data Center Infrastructure (DCID)
- Troubleshooting Cisco Data Center Infrastructure (DCIT)
- Implementing Cisco Application Centric Infrastructure (DCACI)
- Implementing Cisco Application Centric Infrastructure–Advanced (DCACIA)
- Configuring Cisco MDS 9000 Series Switches (DCMDS)
- Implementing Automation for Cisco Data Center Solutions (DCAUI)
- Cisco data center product training, including Cisco Application Centric Infrastructure (Cisco ACI®), Nexus®, and Cisco Unified Computing System (UCS)

Plus, your team earns Continuing Education credits when they complete select certification and technology courses.
