Cisco Digital Learning DevNet

On-demand automation training courses

A well-trained workforce of infrastructure automation professionals is no longer optional. It’s a must. Organizations now scale and streamline their infrastructure through automation, APIs, and programming. Your IT team needs skills in these critical areas to stay competitive.

Cisco Digital Learning DevNet is a 12-month training subscription that provides anywhere, anytime access to all our DevNet courses. You’ll have access to all our certification courses with video lectures and hands-on labs. These courses cover key emerging technical skills that empower your organization to embrace the potential of apps, automation, and programmability.

DevNet exams at the professional-level count toward your Cisco Certified DevNet Professional certification and also earn you a Specialist cert. The courses in Cisco Digital Learning DevNet can help you prepare.

Benefits
