

Cisco Digital Learning Technical Knowledge Library (TKL)

Quick reference answers at your fingertips

Your IT staff is essential to your success

When the network goes down, your IT team fixes it. When a new technology is introduced, they deploy it. If a bug shows up, they resolve it quickly. Most importantly, when your network runs without incident, it puts you and your business on the fast track to success.

Give your team the tools they need to excel with subscriptions to Cisco Digital Learning Technical Knowledge Library (TKL). TKL is a collection of best practices, design guides, new product introduction documentation, and webinars for fast answers to pressing questions. These resources span all Cisco architectures. Twelve-month subscriptions to TKL give your team the information they need, when they need it.

Cisco Digital Learning now features over 4500 pieces of all new content covering the latest products and technologies. We add new content regularly, so your team will always stay up to date.

Benefits

- **Increase** technical competency with ongoing IT maintenance
- **Deploy** new technologies with the latest Cisco® product documentation and training
- **Troubleshoot** issues quickly to decrease downtime
- **Stay up to date** with exclusive webinar events

Accelerate in-house expertise

TKL includes a wide range of content in a wide range of formats. Subscriptions feature:

- **CCNA® Quick Concepts**

A new series that offers clear and concise explanations about topics commonly found on the CCNA exam.

- **Live and recorded webinars**

Cisco Digital Learning TKL subscriptions include weekly live webinars by Cisco experts to bring you up to speed on the latest technologies and solutions. And you can always go back and replay past webinars from the repository.

- **Cisco product and solution documentation**

Cisco DNA Center™, Cisco Meraki®, Cisco Stealthwatch®, and Cisco Umbrella® are just a few of the recently added product and solution topics available through the TKL subscription. Content is added as it is made available, which equals faster deployment and greater productivity for you and your team.

And remember, you can use Cisco Learning Credits to pay for your subscription.
