

# Learning Partner Secure Site Login Process

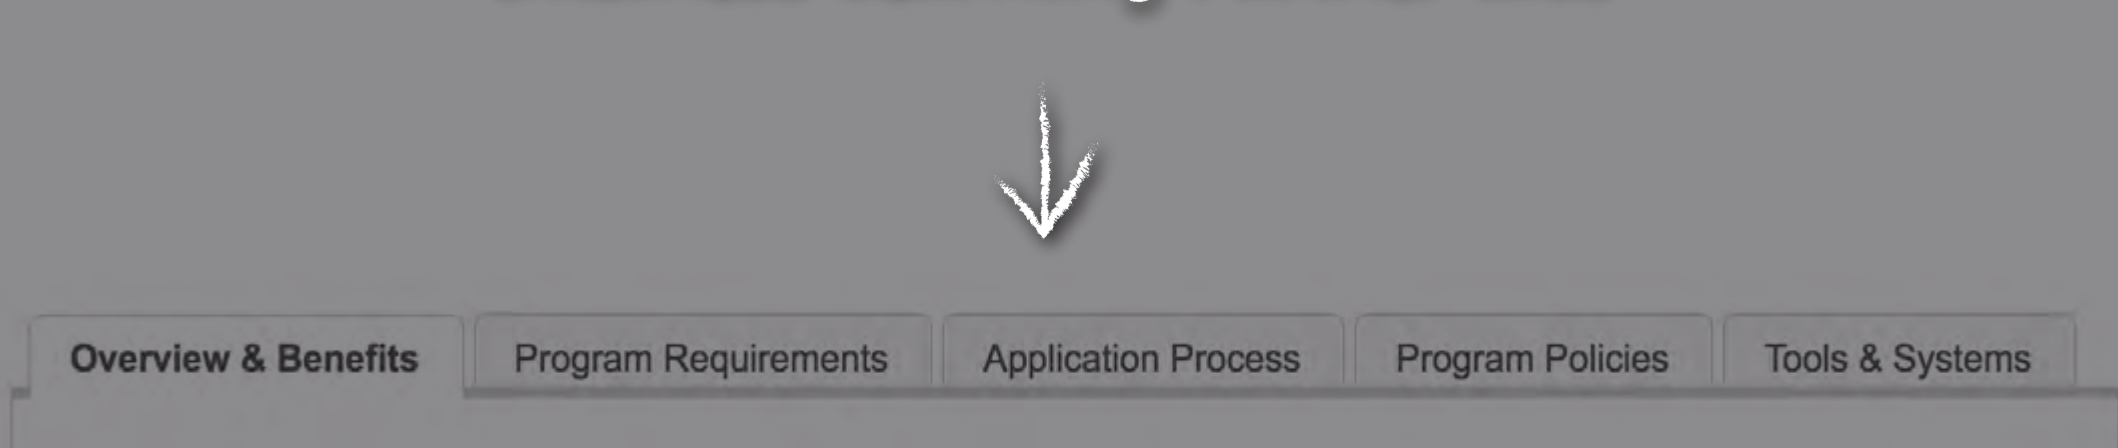

## Cisco Learning Partner and Cisco Learning Partner Specialized tabs

## Education Service Distributor tabs

## Business Learning Partner tabs

If you do not have access to the secured sites links, or need learning partner support, please create a case at the Customer Service Central. Once in **Customer Service Central** follow this path:

**Learning Partners:** Open a Case tab > Tools > View All > Cisco Learning Partner Program.

**Cisco Employees:** Open a Case tab > Program & Tool Support > View All > Cisco Learning Partner Program

**Note:** If this is your first time using it, you will need to sign in to your **My Cisco Workspace** and then add the **Customer Service Central** module to your Workspace to open and manage your cases online. Help and support documentation is available on **Operations Exchange**.
