

## Complimentary Buyer's Criteria for Next-Generation Network Security

Dear XX,

Traditional security defenses can't keep pace with today's evolving networks and advanced attacks. You're at a disadvantage if you rely on outdated tools.

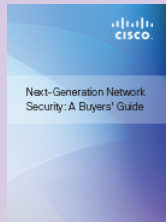

### Gain an in-depth look at:

- What's pushing organizations to consider next-generation solutions
- How to be an educated buyer
- Which capabilities you should look for (and demand) in your network security solutions

The Buyer's Criteria for Next-Generation Network Security will give you a deeper understanding of the new challenges you're facing as well as tips for evaluating network security technologies and gaining protection against new attacks.

Sincerely,  
XX
