

Mobility Express for schools and colleges
Easy to set up.
Easy to manage.

Enterprise Wi-Fi functionality at a price that's right for schools and colleges

Whether you're a primary school or a multi-campus further education college, you'll need a wireless network that lets:

- students work on laptops, tablets or desktops
- teachers access internet-based learning resources
- support staff communicate with colleagues and parents.

But with limited budget, resources and staff, how can you effectively deploy and successfully manage a high quality wireless network?

Enterprise-class wireless LAN access

The Mobility Express solution is a virtual wireless LAN controller that works with Cisco's Aironet access point series. Easy to set up and manage, Mobility Express allows users to enjoy true enterprise Wi-Fi at a realistic price.

Designed for networks of all sizes, including small or medium-sized organisations like schools and colleges, Mobility Express provides industry-leading wireless LAN technology for your staff and students throughout your campus.

Mobility Express is supported on
Aironet Access Points 1815, 1830, 1850, 2800, 3800.

Quick and easy to set up and running in 10 minutes

Mobility Express enables you to set up and manage your network quickly and simultaneously configure multiple access points with industry best-practice settings.

[LEARN MORE](#)

Simplify operations

Mobility Express gives you the flexibility to manage up to 50 access points from a single Aironet 1815 access point - and up to 100 access points when using the Aironet 2800 or 3000 series points.

Enjoy advanced features

Advanced software-based functions let you manage and troubleshoot your WLAN network with ease. The management dashboard is available via browser or mobile app, allowing you to operate, monitor, and troubleshoot your network.

Aironet 1815

The 1815 access point series offers secure, reliable enterprise-class Wi-Fi as standard at a competitive price, and works with Mobility Express to ensure set-up is simple and easy.
