

Meraki MX for Education

School Security Solved

The Meraki MX Security Appliance offers safer Internet access, higher network performance, and easier management, specially designed to meet the needs of schools.

- Protect student privacy & security
- Reduce network complexity
- Identify & contain bandwidth hogs
- Provide mobile device management
- Future-proof your hardware investment

Evaluations available at
meraki.cisco.com/eval

“The all-in-one MX has simplified management and met our needs for supporting and managing thousands of mobile devices.”

—Dirk Delo, Chief Technology Officer, Avenues: The World School

Join the hundreds of schools that have already deployed Meraki:

The new standard for security and content management

The MX offers best-in-class content filtering, safe Internet access, anti-virus, and intrusion detection.

Protect student privacy & security

- Ensure student safety and appropriate usage with built-in Google/Bing/Yahoo! Internet Safesearch
- Keep networks kid-friendly automatically updated, industry-leading content filtering
- Stop malicious traffic with integrated intrusion prevention and detection (IPS/IDS) and Anti-Virus/Anti-Phishing scanning

Reduce network complexity

- Centrally manage all networks, devices, and clients from any Internet-accessible location through a single, web-based dashboard
- Easily propagate security settings across multiple locations using configuration templates
- Quickly deploy new learning spaces or remote sites by preconfiguring Meraki devices from the cloud
- Securely connect schools in minutes with built-in Auto VPN

Identify & contain bandwidth hogs

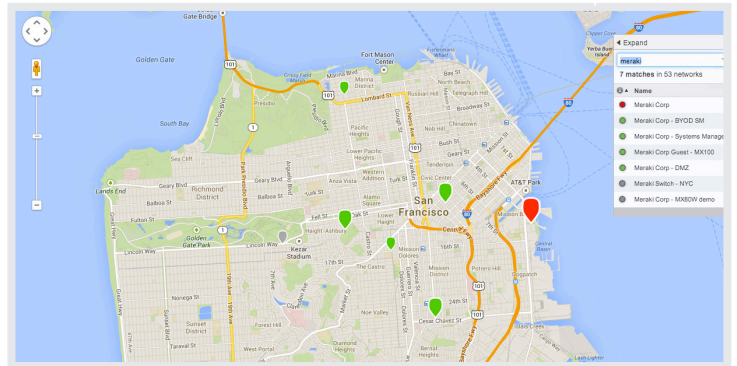

- Gain network insights from industry-leading application traffic visibility and client fingerprinting
- Limit applications and websites, such as Facebook and file sharing, while optimising educational apps with Layer 7 firewall and traffic shaping rules

Provide mobile device management

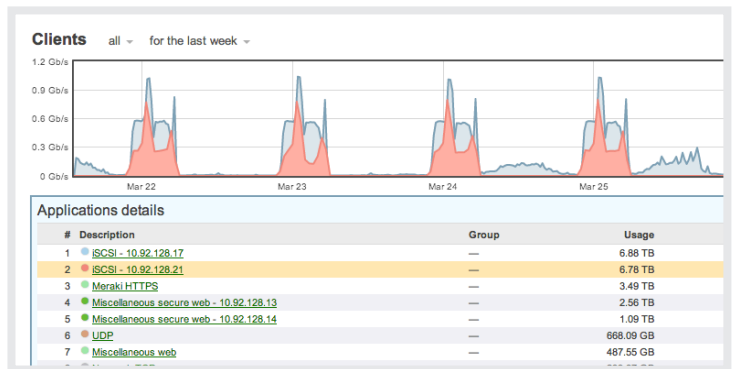

- Centrally manage thousands of iOS, Android, Macs, PCs, and Chromebooks across multiple networks
- Deploy software and apps remotely using the Meraki Web-based dashboard
- Enforce restrictions and security policies, lock/erase devices remotely, check geographic location, and more

Future-proof your hardware investment

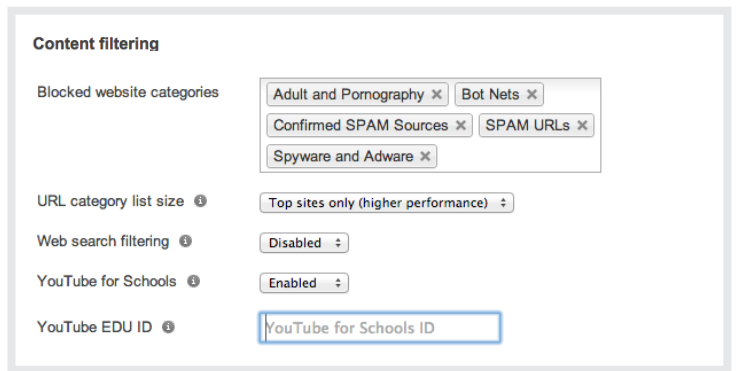

- Seamless updates pushed from the cloud at a date and time of your choosing
- Ensure reliability and flexibility with support for seamless 3G/4G failover and multiple WAN connections

The Cisco Meraki dashboard lets you intuitively manage remote networks, devices, and clients.

Deep visibility and control over network traffic and Layer 7 consumption.

Content filtering with integrated Google SafeSearch and YouTube for Schools.
