## AI note

### Suggested notes

Your personal AI suggested note

The Summer 2023 product launch is on track. Product marketing is taking point for product payload.

- PMMs are working on product messaging and positioning.
- The design team has the script for the marquee video.
- Waiting on CMO approval for the new look and feel
- The events team needs more budget for the experiential activation.
- Social is working on a new influencer campaign.

### Follow-up task

Your personal AI suggested task

- Check with **Christina** on new product data sheets.
- Raj** will follow up with the CMO team on approvals.
- Ming** is drafting up the additional budget proposal request.

## Transcript

Search the transcript

Jane: Alright, let's get started. Today, we're going to be discussing our marketing campaign for the new product launch.

### Clarissa: Stepped away from the meeting

Austin: Great. I'll start by talking about our social media strategy. We're planning to launch a dedicated campaign next week, with a focus on generating excitement and buzz for the product.

Sarah: 👍

Irene: ❤️

Jerry: We'll be using a variety of content formats, including videos, images, and infographics. We'll also be running paid ads on social media platforms like Twitter and Instagram.

## Recap meeting while you were away

Today, 10:52 AM

○ Here is the summary

The team plans to leverage Instagram for visual content and direct engagement, and LinkedIn for B2B connections and thought leadership.

# AI-powered Webex Platform

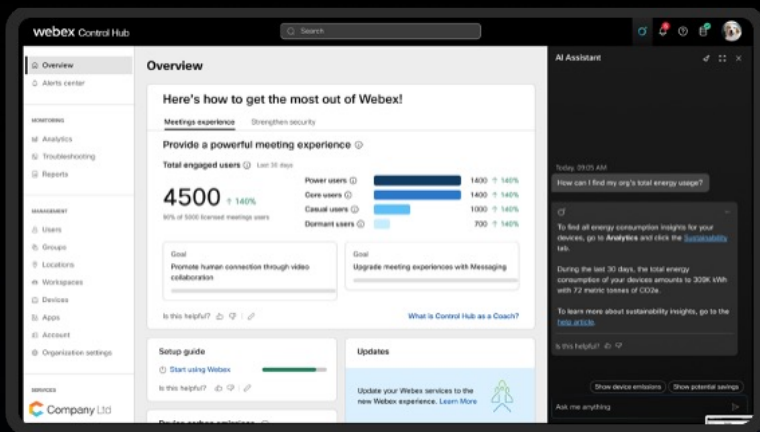

INTRODUCING THE ALL-NEW

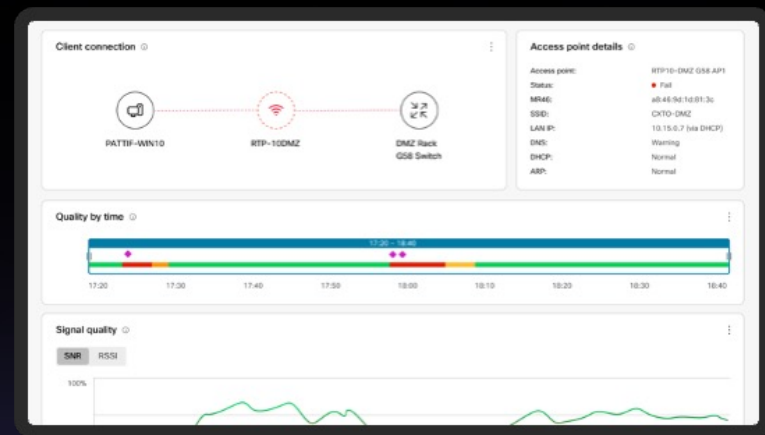

# **Webex AI Assistant**

for Control Hub

# Most extensive AI-powered management and troubleshooting tool

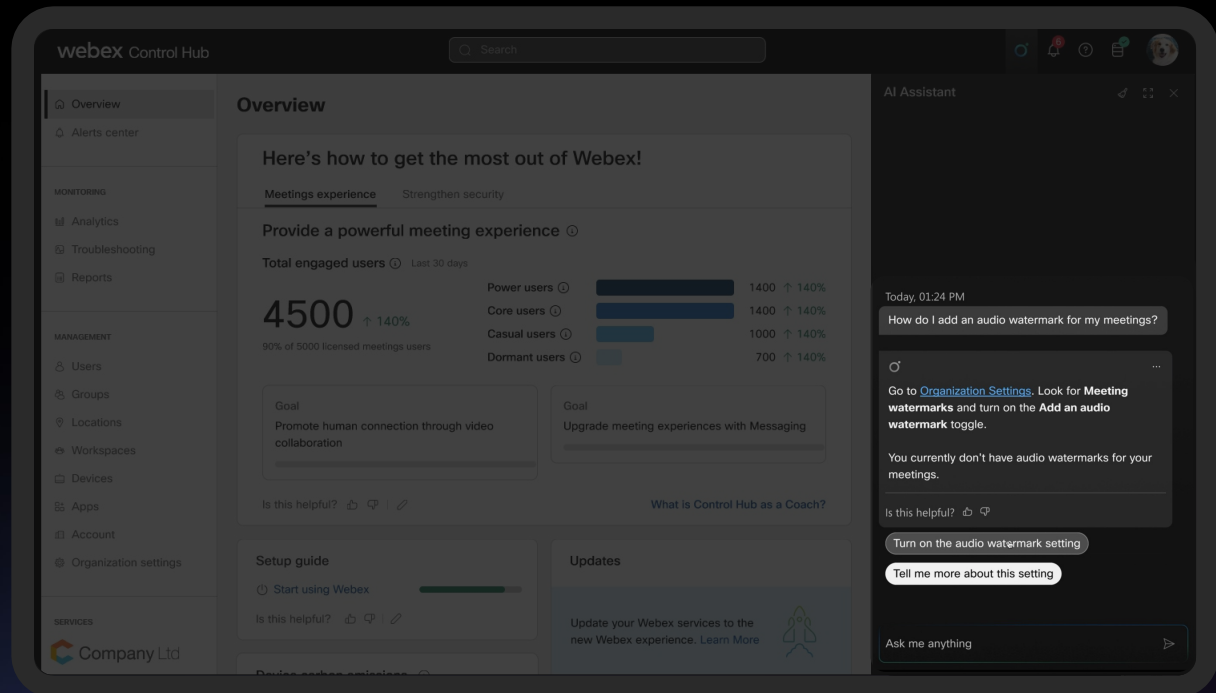

Get the most out of Webex with AI Assistant for Control Hub

Network Insights with Meraki Integration

# Get the most out of Webex with AI Assistant for Control Hub

- Find answers faster
- Increase IT productivity

# AI Assistant for Control Hub

The screenshot shows the Webex Control Hub interface. On the right, an AI Assistant chat window is open, displaying a conversation about meeting issues for Donna Miller. The main dashboard shows an overview of user engagement metrics.

**Overview**

Here's how to get the most out of Webex!

Meetings experience | Strengthen security

Provide a powerful meeting experience

Total engaged users (Last 30 days): 4500 ↑ 140%

90% of 5000 licensed meetings users

User Type	Count	Change
Power users	1400	↑ 140%
Core users	1400	↑ 140%
Casual users	1000	↑ 140%
Dormant users	700	↑ 140%

Goals:

- Promote human connection through video collaboration
- Upgrade meeting experiences with Messaging

AI Assistant Chat:

NEW

## Cisco Room Kit EQX

Integrated super-bundle providing the ultimate video conferencing experience for flagship spaces featuring advanced meeting room AI, flexible mounting, iconic frame design and spatial sound

UX & Interop via Cisco RoomOS

Intelligence engine powered by NVIDIA

Scalable management in Control Hub

# Level up your workspaces with next-generation devices

Cisco Room Bar

Integrated video bar appliance designed to simply and flexibly video-enable **huddle and small workspaces**

Cisco Room Bar Pro

Simple deployment, AI-powered meetings, advanced interop and unified management scaled to the **medium workspace**

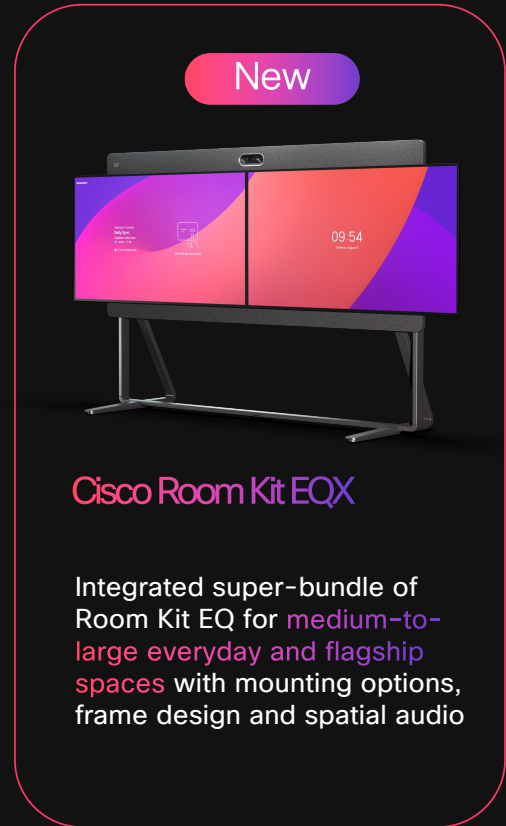

Cisco Room Kit EQ

Advanced meeting room AI, multi-camera cinematic meetings, and rich connectivity for **medium to large workspaces**

Cisco Board Pro

Hybrid, all-in-one room device for AI video conferencing and visual collaboration in **small and medium workspaces**

Cisco Room Kit EQX

Integrated super-bundle of Room Kit EQ for **medium-to-large everyday and flagship spaces** with mounting options, frame design and spatial audio

UX & Interop powered by RoomOS

Intelligence engine powered by NVIDIA

Scalable management in Control Hub

# Cisco Room Bar Pro

*Immersive collaboration for hybrid workspaces*

## Full HD meetings

Provides up to 1080p60 resolution for live video on Webex, Microsoft Teams, Zoom and Google Meet.

## 4K content sharing

Can be paired with dual screens to display video and content separately. Displays remote content with 15 fps.

## Camera intelligence

Automatically frames and provides optimized view of in-room participants and keeps the active speaker in focus.

## Spatial audio

Uses 3-channel loudspeakers for spatial audio and intelligent mic array for enhanced noise cancellation and voice capture.

## Device management

Unified management, provisioning, analytics and troubleshooting in Control Hub.

## Room intelligence

Conference controls, room scheduling and room controls with Cisco Room Navigator.

# Triple- screen support

Augmented  
experience with the  
option to display live  
video or video and  
content divided on  
three screens.

Triple-screen support  
requires Room OS.

# Dual camera system

Dual camera system featuring a wide-angle lens and a tele-lens, both with 48 MP image sensors.

Motorized tilt of camera body for flexible installation and optimum view of the workspace.

webexone<sup>23</sup>
