

# Cisco CyberSecurity Academy

## Enabling the next generation of Cybersecurity Specialists

Cybersecurity Specialists help protect systems, applications and data from misuse and thus minimize damage to assets, objects, knowledge and people. In addition, they make an important contribution to maintaining Switzerland's image as a safe location for businesses.

**More than 30%** of Swiss companies are affected by cyber attacks\*

Swiss companies tend to **underestimate cyber threats**\*

**Only 15%** of Swiss companies have staff trained in the safe use of the internet\*

**Our aim is to address the alarming shortage of Cybersecurity Specialists in the Swiss market and contribute to protecting our Swiss economy, our companies and families from cyber threats.**

Spark your intellectual enthusiasm, grow your skills and qualify as a Cybersecurity Specialist at the highest level. Whether you are an undergraduate student or a working professional, you can take advantage of Cisco's expertise and resources. Graduates will gain the skills to design and deploy holistic security solutions as well as anticipate, prevent, detect and handle complex security incidents.
