

# Leveraging IIJA for Transportation

## How to align the new federal funding to your needs

Our nation's roads and railways, mass transit, aviation, and air/sea ports are critical for sustaining economic strength and development. But increasing regulations and cyber threats, as well as ill-defined user experiences, can hinder their efficiency. The Infrastructure Investment and Jobs Act (IIJA) and other federal funding sources offer your agency a unique opportunity to meet these challenges while increasing resilience, transportation equity, and efficiency.

### 1 Today's needs

#### Modernize operations

Better manage all assets and data for increased efficiency and costs savings while meeting regulations.

#### Improve threat awareness/response

Gain greater control and understanding of assets and behaviors for faster incident response.

#### Better engage users

Engage users to build trust and transparency for safer, healthier, and more enjoyable outcomes.

### 2 How Cisco can help

#### IT modernization and automation

Digitize operations to easily manage, scale, and secure infrastructures. Turn data-driven insights into actions that improve efficiencies. Automate responses, reporting, and user-specific policies.

#### Industry-leading security

Gain deeper visibility into networks, devices, and user behaviors. Leverage video streaming/analytics to monitor assets and facilities in real-time for heightened situational awareness and faster incident response.

[Discover more >](#)

#### User engagement & experience

Deliver customized user experiences/services throughout journey via fast and reliable on-board and facility-wide WiFi. Decrease queues and congestion with kiosk/way-finding. Improve health and safety of all.

### 3 IIJA, stimulus support, and other funding is available for State, Local, and Tribal governments

#### Cisco Networking Solutions

Industrial switching, wireless, and edge compute leveraging SD-WAN and Cisco DNA Center. Gain visibility and control across gateways, sensors, and data with Cisco's cloud-based IoT Operations Dashboard.

#### Cisco Security Solutions

Simple, integrated security with Cisco's SecureX platform featuring Umbrella and Secure Endpoint. Manage access with Duo and Identity Services Engine. Secure industrial control systems with Cisco Cyber Vision.

#### Cisco User Experience Solutions

Deliver location-based services by leveraging Cisco DNA Spaces and Cisco Vision Dynamic Signage. Increase trust and user satisfaction with Cisco Ultra-Reliable Backhaul Wireless and Meraki video cameras.

The bridge to possible
