

# Leveraging IIJA for Resilience

## How to align the new federal funding to your needs

Effectively preparing for and responding to chronic stressors and acute shocks, including growing cyber-threats, is a continuing challenge for state and local governments. That's why an efficient, unified response is now urgent. The Infrastructure Investment and Jobs Act (IIJA) offers your agency a unique opportunity to achieve this capability, increasing resilience in your community.

### 1 Today's needs

#### Increase resilience

Integrate operations and command to better prepare for and respond faster to a variety of incidents, both physical and virtual.

#### Overcome chronic stressors

Increase effectiveness in preparing for and responding to ongoing issues (traffic, pollution, network security, and more).

#### Protect against acute shocks

Become better prepared for and speed response to unexpected events (natural, manmade, and cyber).

### 2 How Cisco can help

#### Unify infrastructure

Easily enhance existing operations, intelligence, and fusion/cyber centers to quickly address evolving and increasingly complex threats while maintaining simple management.

[How to start >](#)

#### Long term sustainability

Leverage predictive analytics for better planning, centralize services and cloud. Efficiently deliver digital services for citizens. Secure network via MFA and endpoint protection.

[Discover more >](#)

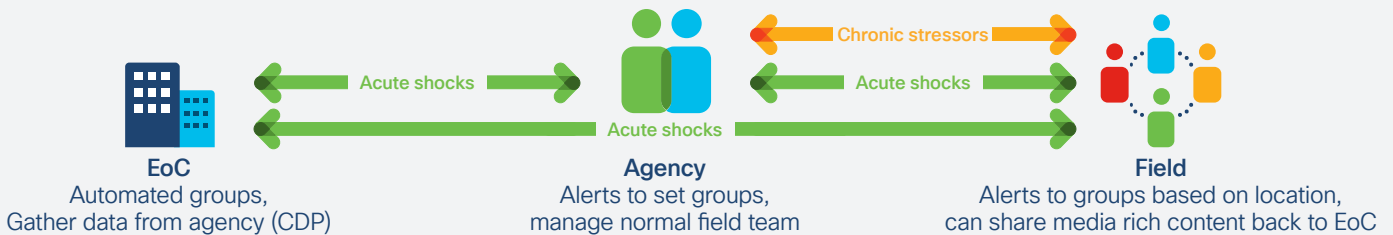

#### Short term continuity

Enable agility and rapid scaling. Automate actions using real-time data. Deliver secure communications and data across governments. Deploy threat-centric security.

### 3 IIJA, CARES, ARPA, BRIC and other funding is available for State, Local, and Tribal governments

Increase resilience with simple, easy-to-deploy solutions:

**Cisco Network Solutions**  
Connect agencies/devices for greater visibility and sharing.

**Cisco Collaboration Solutions**  
Improve information and intelligence interoperability.

**Cisco Cyber Solutions**  
Enhance continuity, integrity, and resilience of services.
