

Leveraging IJA for Airports

How to align the new federal funding to your needs

Our nation's airports are critical for sustaining economic strength and development. But a rise in costs, regulations and cyber threats, as well as ill-defined user experiences, can hinder their efficiency. The Infrastructure Investment and Jobs Act (IIJA), and other federal funding sources, offer your agency a unique opportunity to meet these challenges while increasing resilience, equity, and efficiency.

1 Today's needs

Operational efficiency

Increase efficiency of facility, cargo, and ground operations. Improve real-time insights, lower operational costs, and meet sustainability goals.

Safety and security

Monitor assets and behaviors in real-time to better protect users from physical and cyber threats.

Passenger experience

Better engage passengers to deliver timely information, products, and services tailored to their needs.

2 How Cisco can help

IT/OT convergence and automation

Improve operations with resilient infrastructure, automation, remote operations, video analytics, remote condition monitoring, and mobile worker solutions.

3 IIJA, stimulus support, and other funding is available for State, Local, and Tribal governments

Cisco Networking Solutions

IOT Switching, routing, and Industrial Wireless (Cisco URWB, Wi-Fi, and 5G)
Edge Intelligence and IoT Operations Dashboard
Cat9k, NCS500/5000, DNA-C
Meraki MV/MT and Analytics
Cisco Webex

Cisco Security Solutions

Cybervision
Duo, Umbrella, and AnyConnect
ISE and AMP
SecureX, ESA, and WSA,
Secure Network Analytics
NGFW, AppDynamics, and Talos

Cisco User Experience Solutions

IOT Switching, routing, Industrial Wireless (Cisco URWB, Wi-Fi, and 5G)
Cybervision, Edge Intelligence, and IoT Operations Dashboard
Cat9k, NCS500/5000, DNA-C
Meraki MV and Analytics

The bridge to possible
