

Accelerate your factory's efficiency and productivity

With Cisco Connected Factory Accelerator Bundle

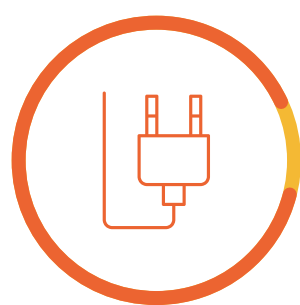

Did you know that digitizing your factory could...

Increase employee productivity
10-50%

Reduce unplanned downtime
30-50%

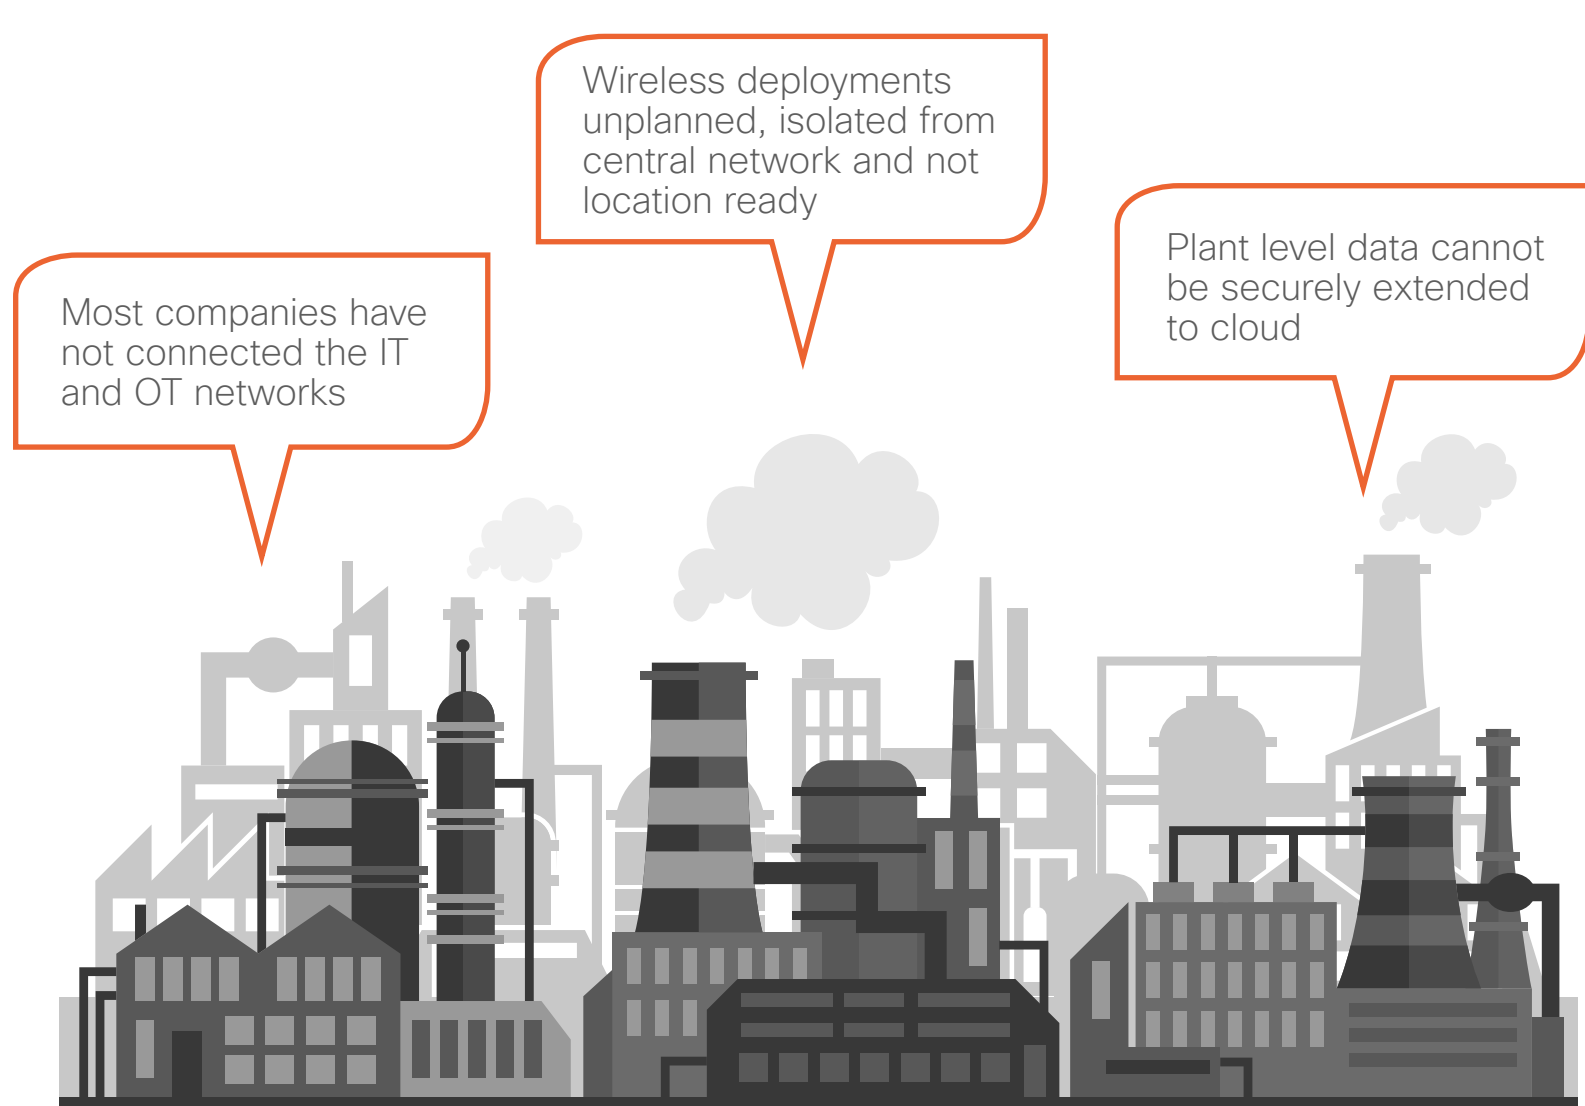

Lower cabling costs for mobile machine tools up to
95%

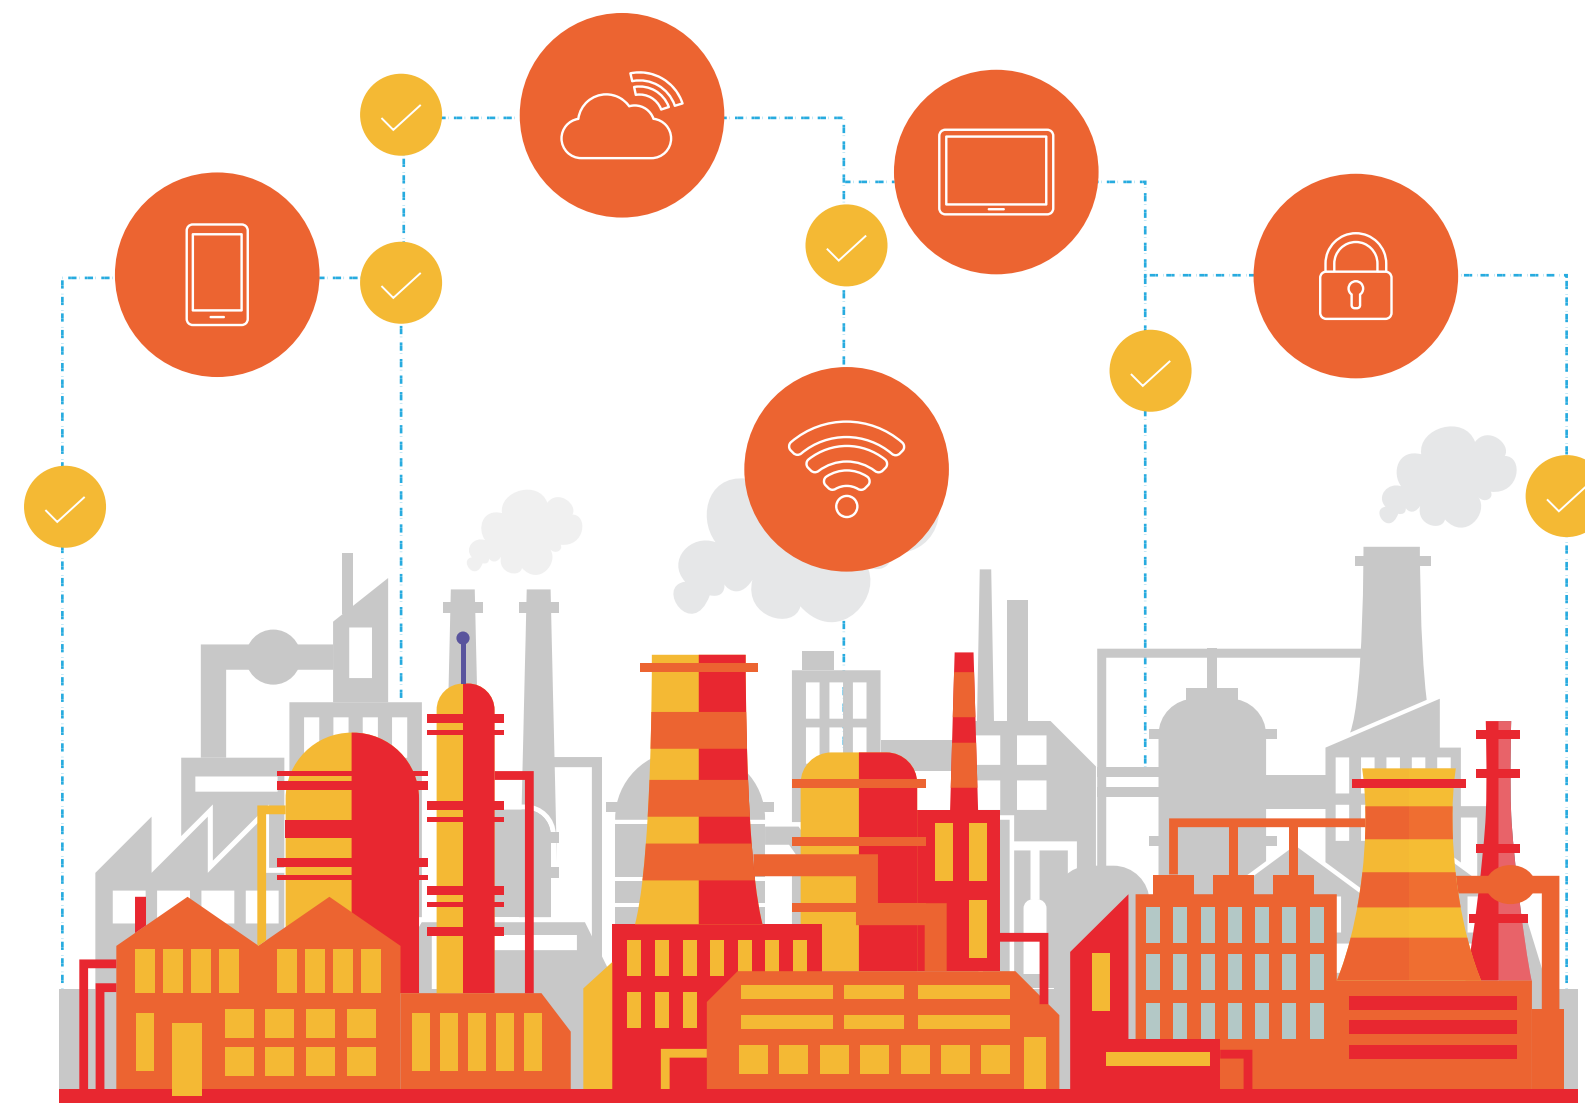

Lower networking costs
10-15%

But a typical factory today is not IoT ready!

Cisco Connected Factory Accelerator bundle is the solution

Factory Network
All systems integrated onto a single, converged network

Factory Wireless
Delivering unified wireless for industrial IT applications

Factory Security
Add security across the plant for both digital and physical assets

The Cisco Connected Factory bundle offers manufacturers many competitive advantages

16%
Overall Equipment Effectiveness
OEE improved from 74% to 86%

5% & 33%
Downtime losses reduced
Manufacturers lose 5% of production and 33% of profits per year from downtime.

50%
Inventory cost reduction
More flexible factories can reduce inventory cost by 50%

Become IoT ready today.
Discover how.
