

Cisco On Premise Wireless Portfolio

Second edition: Aug 2017

Cisco Wireless achievements

\$2.5 Bn
in revenue

46%
APJ Market share No. 1

3.5%
YoY growth

- 12 years plus Gartner MQ leadership
- 600,000+ unique WLAN customers
- Comprehensive **on premise and cloud-managed** wireless and wired portfolios
- Installed in 95% of the Fortune 1,000 companies
- Wireless R&D spend >\$400mil per year

Best in class 802.11ac Wave 2 access point

Industry leading 4x4 MIMO:
3 Spatial Streams (SS)
Wave 2 802.11ac access points

Dual radio, 802.11ac Wave 2, 160 MHz

Combined data rate of 5.2Gbps

Cisco Aironet®
3800 Series

Cisco Aironet®
2800 Series

2 x 5 GHz: 4x4: 3SS supporting

- SU-MIMO/MU-MIMO
- Flexible radio assignment: 2.4GHz, Dual-5GHz, wireless security monitoring, wireless service assurance*, or enhanced location*

HDX technology

Enhanced location using external antennas*

USB 2.0

Internal and external antenna models

Smart antenna connector - 2nd antenna connector

Gigabit Ethernet and multi-Gigabit Ethernet (1G, 2.5G, 5G)
Modularity: Side mount modular

2 x Gigabit Ethernet with LAG

* Post-FCS

Low cost high performance

Cisco Wave 2 Aironet 1815 Series

New

Cisco Aironet® 1815 Series

Education

Tele-Worker

Hospitality

- Comprised of four separate low-cost, sleek APs
- Minimizing total cost of ownership while delivering advanced features
- Easy to deploy and manage with Cisco mobility express
- Integrated Bluetooth low energy radio*

AIR-AP1815i-x-K9/K9C
Indoor

AIR-AP1815m-x-K9/K9C
High power

AIR-AP1815w-x-K9/K9C
Wall plate

AIR-AP1815t-x-K9
Teleworker

Ideal for small to medium sized indoor deployments

Low cost high performance

Cisco Wave 2 Aironet 1815 Series

Cisco Aironet®
1815i indoor

- 2x2:2SS MU-MIMO
- 867Mbps
- Dual radio, dual band, 80MHz
- Integrated bluetooth low energy radio
- Sleek design in a small form factor: 150x150x33mm
- 1x 1Gb uplink Ethernet port (PoE)
- Mobility express enabled up to 50 AP

Cisco Aironet®
1815m high power

- 2x2:2SS MU-MIMO
- 867Mbps
- Dual radio, dual band, 80MHz
- Integrated bluetooth low energy radio
- Sleek design in a small form factor: 150x150x33mm
- 1x 1Gb uplink Ethernet port (PoE)
- Mobility express enabled up to 50 AP
- +4dB Tx power per chain compared to 1815i

Cisco Aironet®
1815w wall plate

- 2x2:2SS MU-MIMO
- 867Mbps
- Dual radio, dual band, 80MHz
- Integrated bluetooth low energy radio
- Sleek design in a small form factor: 140x89x32mm
- 1x 1Gb uplink Ethernet port (PoE)
- Mobility express enabled up to 50 AP
- 3x Local 1Gb Ethernet ports
- 1x passive pass-through RJ45
- PoE support LAN1 port

Cisco Aironet®
1815t teleworker

- 2x2:2SS MU-MIMO
- 867Mbps
- Dual radio, dual band, 80MHz
- Sleek design in a small form factor: 150x100x38mm
- 1x 1Gb uplink Ethernet port
- 3x Local 1Gb Ethernet ports
- PoE support on LAN1
- Up to 2 ports securely tunneled back to WLAN controller
- AC Adapter included

Aironet 1815 Series

Optimize cost for capacity or coverage

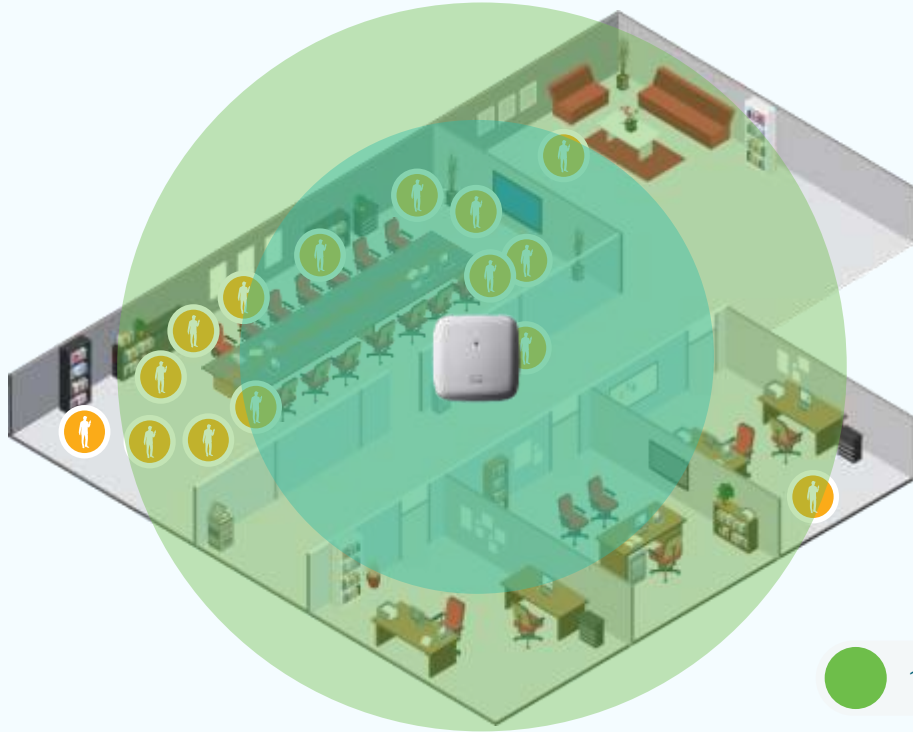

Targeting Asia-Pacific markets to address requirements where the emphasis is often on smaller cells and higher client density

1815i - Capacity

Aironet 1815 Series

Optimize cost for capacity or coverage

Targeting Asia-Pacific markets to address requirements where the emphasis is often on larger cells and lower client density

 1815m - Coverage

 1815i - Capacity

Cisco Aironet outdoor access points portfolio

Industry's best 802.11ac outdoor access point series

Aironet
1542

Enterprise, ruggedized, ultra low-profile housing | 802.11ac Wave 2 | 2x2:2 |
Internal semi-omni antenna/internal directional antenna

Aironet
1562

High-end enterprise | 802.11ac Wave 2 | Support HDX
Cisco CleanAir

Aironet
1572

High-end enterprise | MSO, industrial, manufacturing | Modular: Future proof
802.11ac Wave 1 | 4x4:3 | NG-Cable: 24x8 | In/external antennas

Cisco Aironet indoor access point portfolio

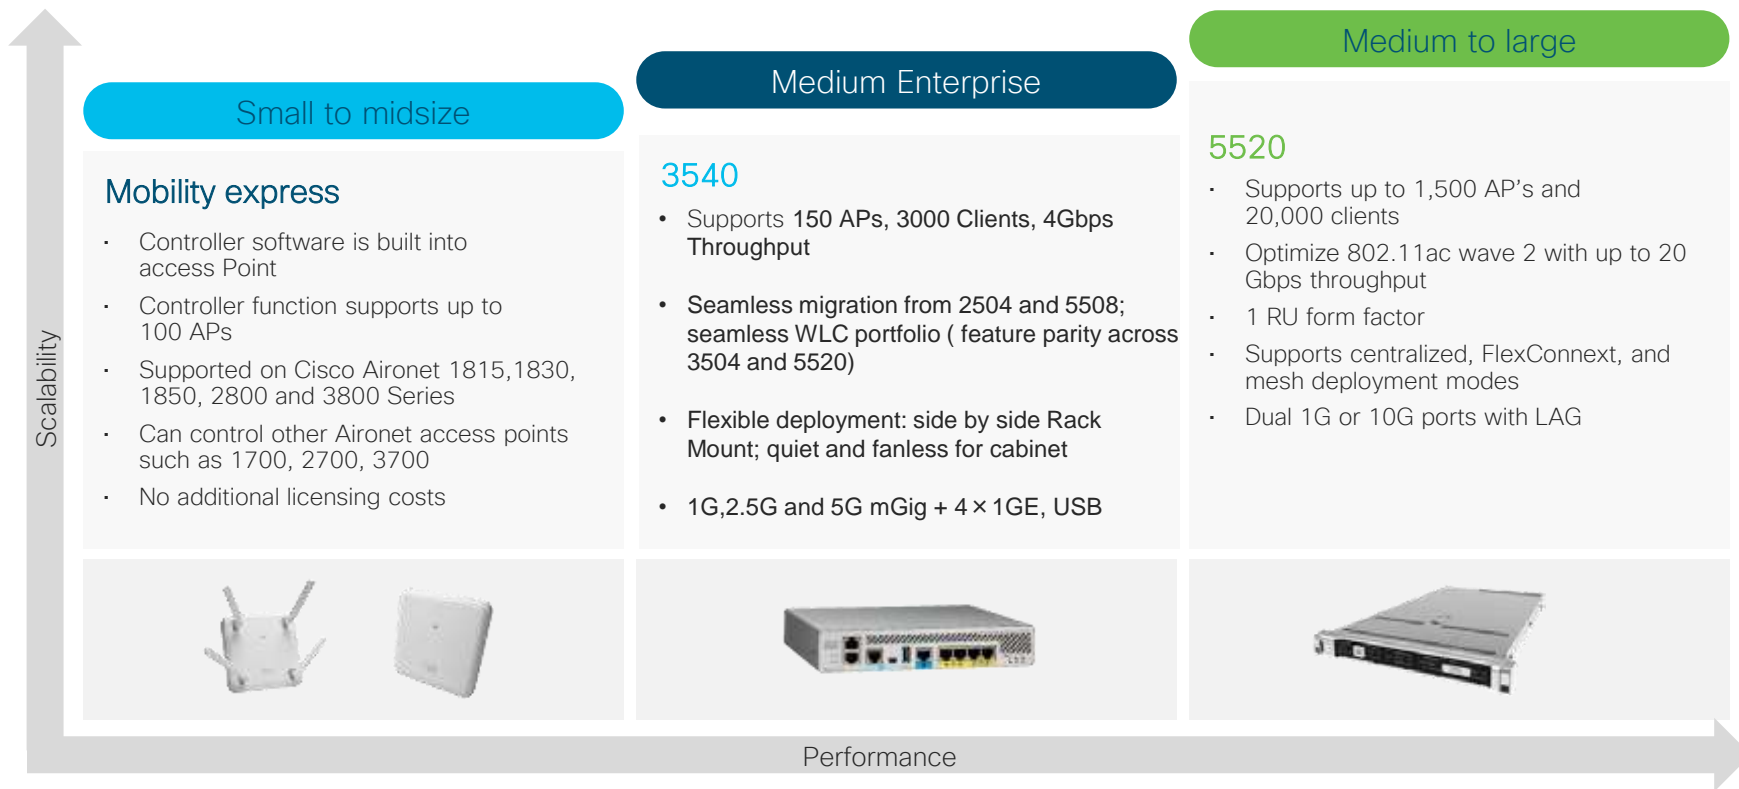

Positioned to capture the 802.11ac Wave 2 transition

1815 Series		Small-mid deployments Mobility express enabled	2x2:2SS	80MHz	867Mbps
1830 Series		Enterprise-class Small-mid deployments Mobility express enabled	3x3:2SS	80MHz	867Mbps
1850 Series		Enterprise-class Small-mid deployments Mobility express enabled	4x4:3SS	80MHz	1.7Gbps
2800 Series		Mission critical Mid-enterprise deployments High density environments	4x4:3SS	160MHz	2.4Gbps
3800 Series		Best in class Mid-enterprise deployments High density environments	4x4:3SS	160MHz	2.4Gbps

Cisco Aironet controller portfolio

Positioned to capture the 802.11ac Wave 2 transition

Cisco Wireless Controller deployment mode compatibility comparison

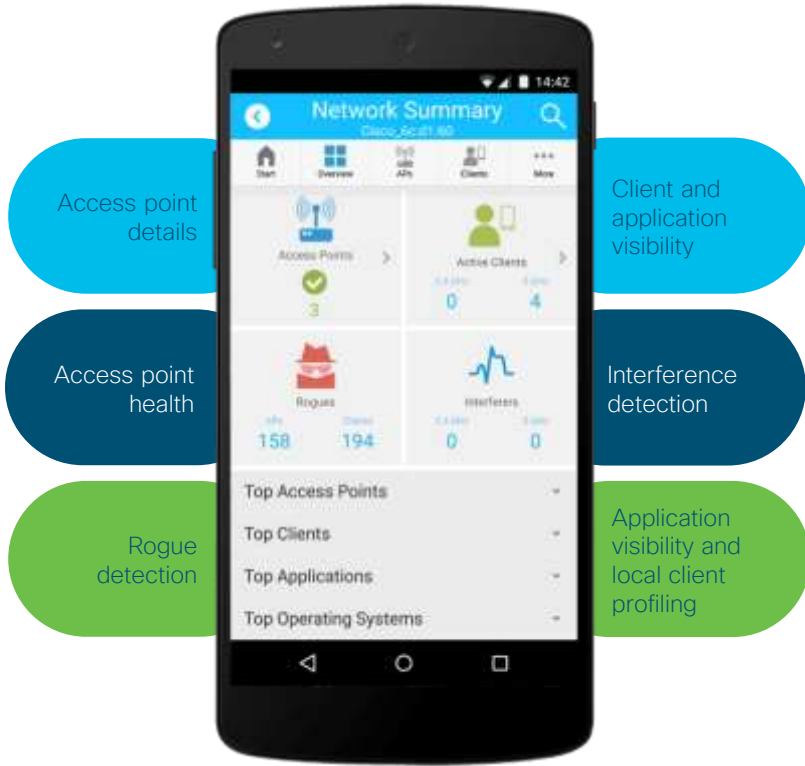

Platform	Deployment modes			
	Mobility express	Flex connect	Centralized	OfficeExtend
Cisco Aironet 1815/1830/1850 Series Access Points	●	-	-	● (1815t)
Cisco Aironet 2800/3800 Series Access Points	●	-	-	-
Cisco Aironet 1560 Series Outdoor Access Points	● ^{*1}	-	-	-
Cisco 2500 Series Wireless Controller	-	●	●	●

Cisco 8500 Series Wireless Controller	-	●	●	●

*1 Cisco Aironet 1560 Series are to be supported in future software release.

Mobility express

Simplifying wireless deployments

WLAN express setup wizard

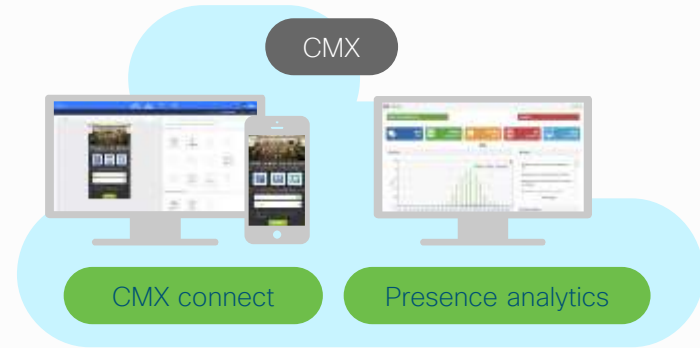

- Simplified user interface
- Over-The-Air no cable needed
- Basic employee and a guest WLAN
- Improved guest captive-portal

Cisco best practices ON by default

- Internet only guest access controls
- Application visibility
- Clean air and intrusion detection
- Band select
- Radio resource management
- Client profiling
- Bonjour service directory
- Best practice default settings

CMX cloud

Native support for mobility express AND Meraki

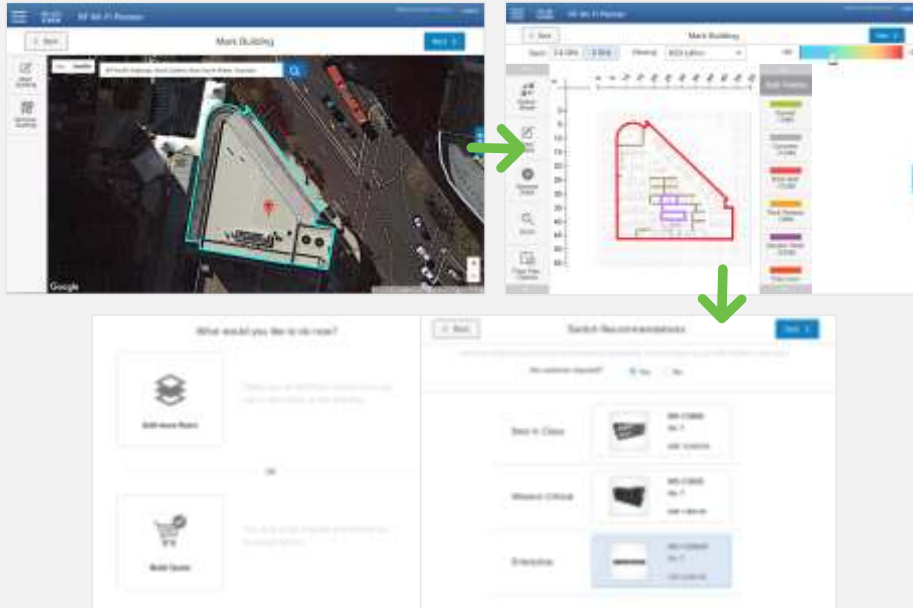

Cisco Meraki MR33
2x2:2SS MU-MIMO

Cisco Meraki MR30H
2x2:2SS MU-MIMO

RF planner

FREE cloud-based predictive planning tool
