

Why Your Business Deserves Better Security

Small businesses are hit by **62%** of all cyberattacks

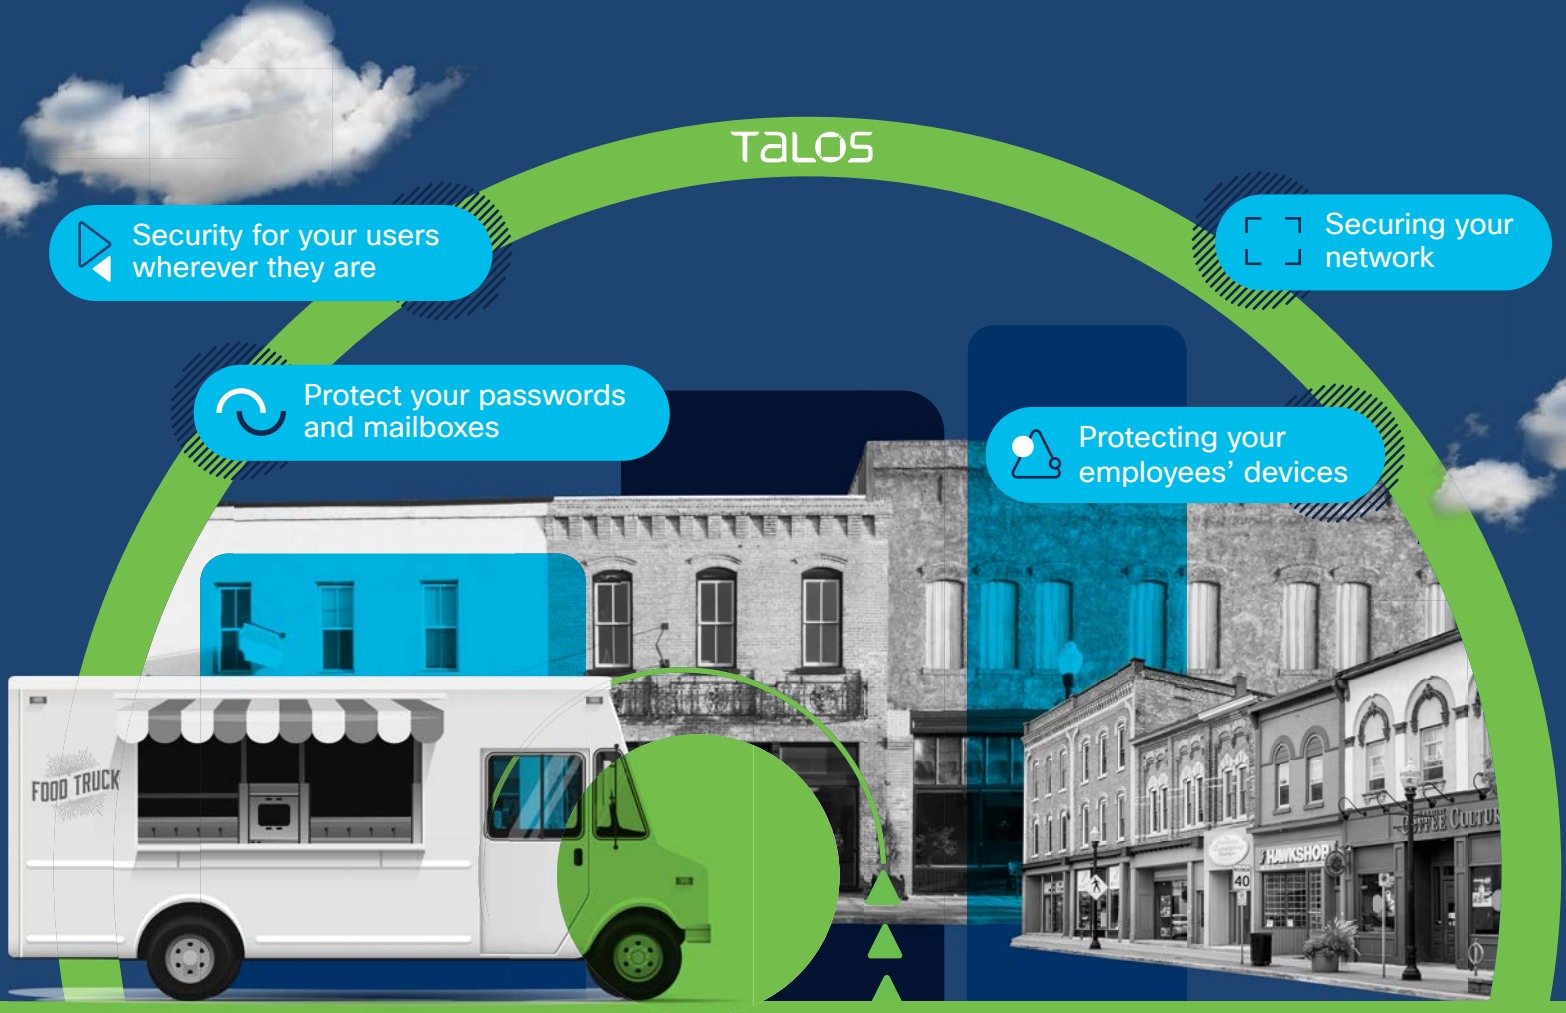

The average cost of a compromise for SMBs in 2019 was **\$1.24M**

58% of SMBs say they do not have visibility into employees' password practices

Protect your business with the strongest security team on the planet.

What are your main security concerns?

Securing your network

Firewalls control access to your company's resources by monitoring incoming and outgoing network traffic. For added protection, look for a firewall that offers visibility and automation.

Protecting your employees' devices

Cisco Advanced Malware Protection (AMP) prevents threats at the point of entry and then continuously tracks every file it allows onto your endpoints, such as mobile devices, laptops, desktop PCs, and more.

Talos: Your Ultimate Security Advantage

Talos security intelligence is the industry's most powerful cyber threat protection, which Cisco integrates into every solution. Talos tracks threats across end points, networks, cloud environments, web, and email providing a comprehensive understanding of cyber threats and solid, actionable intelligence.

19.7B
threats blocked per day

600B
emails inspected per day

1.5M
malware samples per day

With Cisco's integrated approach to security, you get:

1 A simplified security experience.
Protect your entire business with a powerful, yet simple, security approach.

2 Security that works as fast as you do.
Our security solutions work as a team to detect threats earlier and faster.

3 Security that grows with your business.
Strengthen your security strategy and reduce risk with reliable solutions.

“If it (an attack) does happen, we can find it quickly, shut it down, and contain it.”

– Mike Austin, CEO, Macon-Bibb County Housing Authority

You build your business—we'll secure it.

Let us show you how easy it can be to protect your entire organization—yes, all of it—so you can run your business fearlessly.
