

Factories Work Best in the Cloud

It's a brave new world

59%

of cloud professionals state their top cloud access networking priority over the next two years is to centralize security in the cloud¹

51%

of cloud professionals prioritize the adoption of end-to-end network telemetry and visibility¹

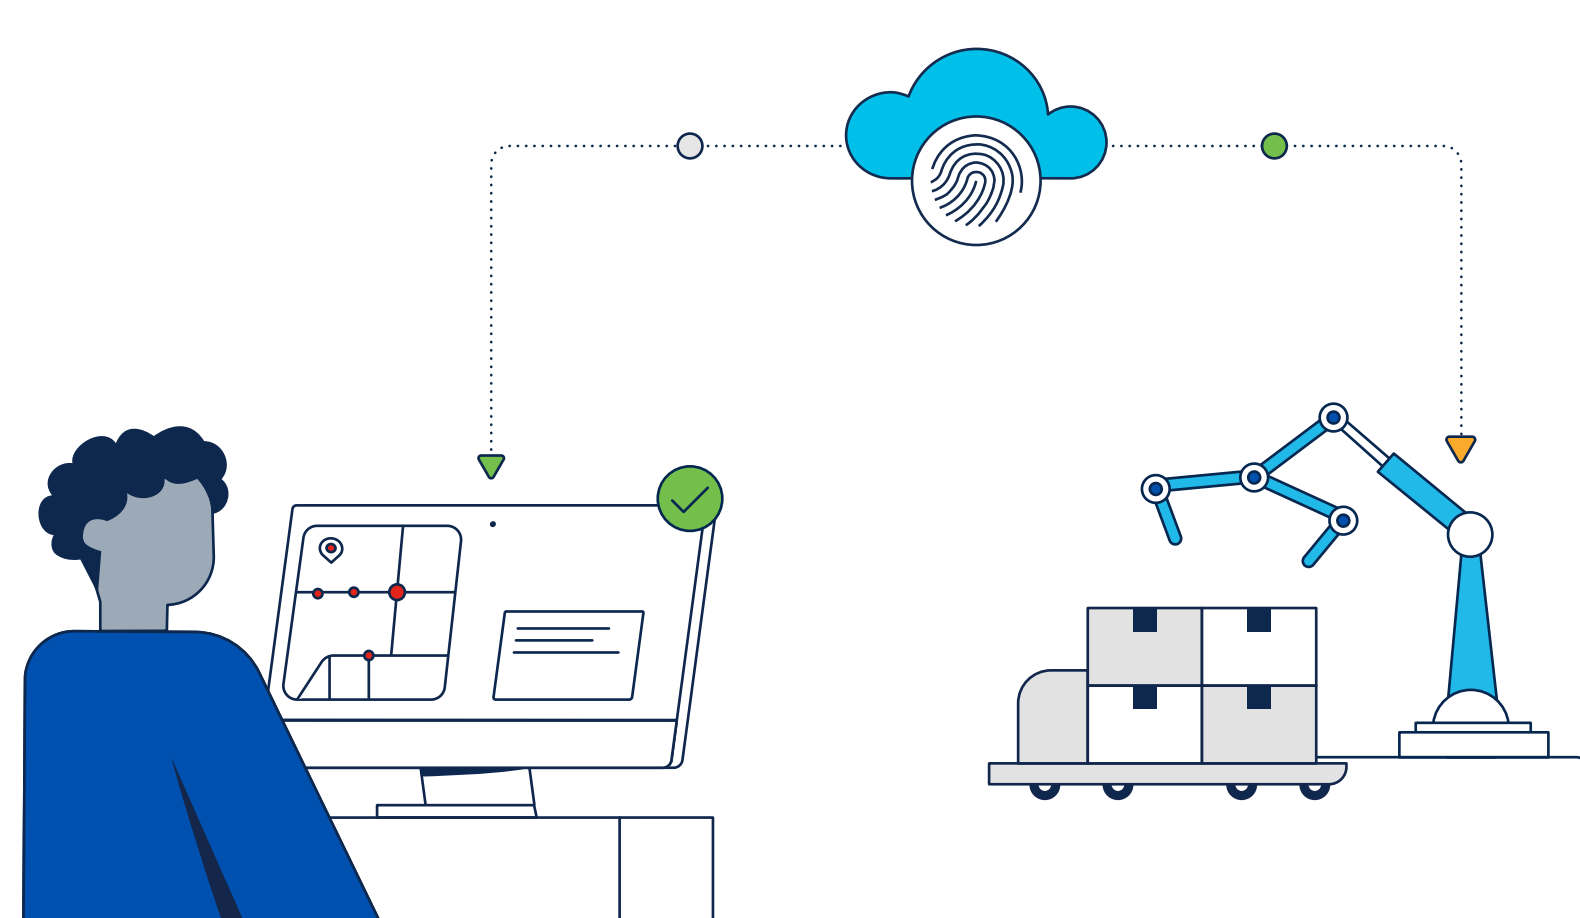

2.4x

increases in malicious remote access attempts are made²

“Cloud will be the centerpiece of new digital experiences”

60%

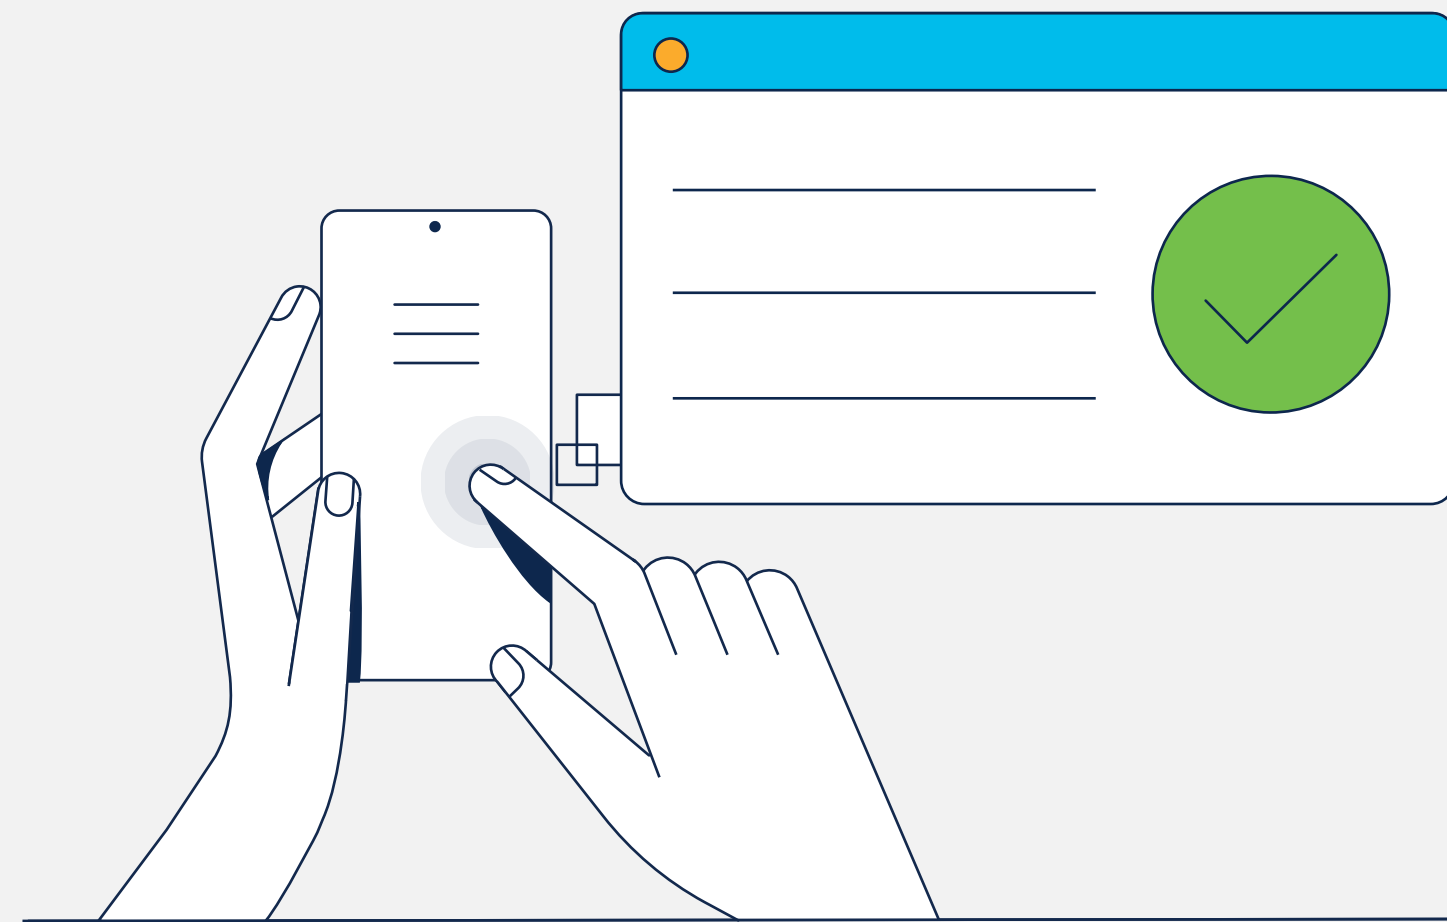

of enterprises use some level of cloud-based platform to manage their network infrastructure⁴

Benefits of Cloud Managed Networking

Simple

Efficiencies from the moment you open the box.

Scalable

Global operations, one dashboard.

Extensible

Feature and use case velocity through the power of APIs and ecosystem.

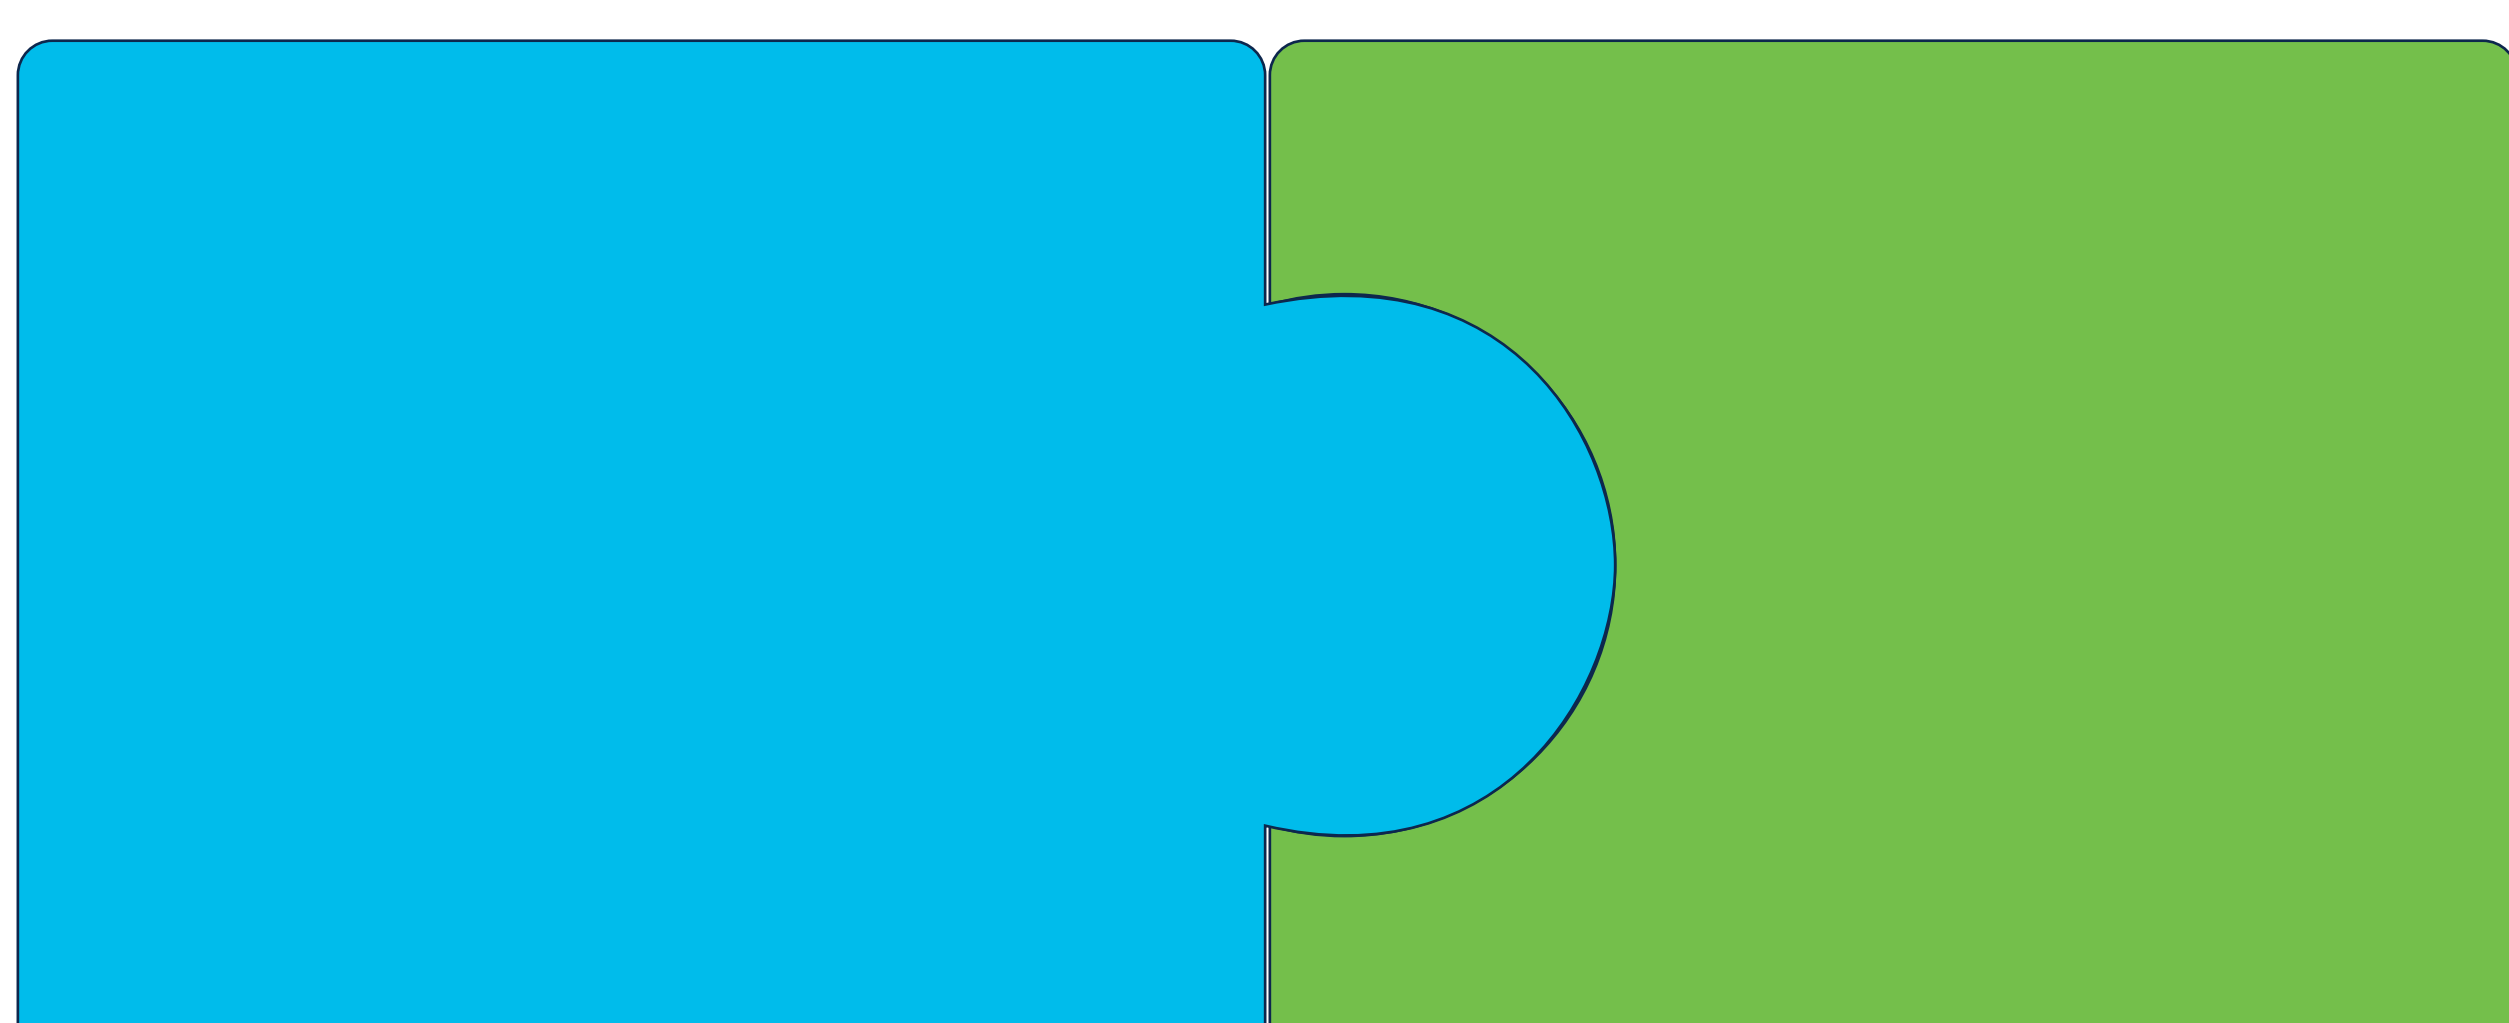

Secure

Always up-to-date and continuously learning.

More power, less complexity

#1 in networking infrastructure

#1 in cloud managed networks

Cisco Catalyst

Cisco Meraki

Your journey, your way

Cisco Catalyst Center

Cisco Meraki Cloud Monitoring

Cisco Meraki Cloud Management

On-premises management

- Do-it-yourself
- Operational flexibility
- Physical or virtual appliance
- High touch

Cloud management

- Cloud-first IT
- Operational simplicity
- No appliance
- Low touch

Cloud Monitoring

Full spectrum of operational models

Your new network awaits

See how Cisco Access Networking can help meet the changing demands of your factory.
