

10 Reasons to Choose Cisco Switching

Contact the Cisco START Helpline at csg-sg@cisco.com or call toll free at 800 448 1627 for further help.

	Top 10 Reasons	Customer Benefits
Reliable	<p>1. Market share leader. Cisco is the market leader in switching. According to IDC, Cisco commands 56% of rolling market share in enterprise switching in Asia Pacific and Japan over the past 4 quarters.</p>	<ul style="list-style-type: none"> Chosen and tested by numerous customers –it works.
	<p>2. Technology leader. Cisco leads in the Gartner Magic Quadrant for Wired and Wireless LAN Access Infrastructure for both our completeness of vision and our ability to execute.</p>	<ul style="list-style-type: none"> Future-ready Investment protection
	<p>3. Proven track record. Cisco is a pioneer in switching and has more than 2 decades of innovation in our switching product lines. Many IEEE standards for switching today originated from Cisco.</p>	<ul style="list-style-type: none"> Best-in-class technology
	<p>4. Reliable. Cisco switches come with redundancy and resilience features in both hardware and software to increase uptime. We also offer smart, remote troubleshooting to help prevent outages.</p>	<ul style="list-style-type: none"> Continuous business operations Increased IT productivity
Committed to SMBs	<p>5. Commitment to small and medium-sized businesses (SMBs). Cisco® START offers SMBs a suite of simple, secure, smart solutions, made and priced to build their digital-ready networks.</p>	<ul style="list-style-type: none"> Purpose-built for SMBs
	<p>6. Simple. Cisco switching is simple to deploy and manage. Our switches support zero-touch deployment and GUI-based network management with a customizable monitoring dashboard. You can centralize management of your network and configure multiple switches at the same time.</p>	<ul style="list-style-type: none"> Up to 75% reduction in man-hours spent configuring and testing switches¹ Average cost savings of 60% to 80% with zero-touch provisioning²
	<p>7. Secure. The network sees everything. Cisco switches have embedded security features to control who gets on the network, detect security attacks as they happen,³ and enforce security policies through the network.⁴ We offer comprehensive threat defense, and support network segmentation to reduce attack surface too.</p>	<ul style="list-style-type: none"> 400x faster threat detection from 100+ days to 6 hours⁵ Contain threats quickly, generating 140% return on investment¹
	<p>8. Smart. Cisco switches are designed to optimize application experience. We provide application visibility and control and intelligent traffic management to help customers prioritize business-critical traffic over recreational traffic. Our higher-end switches even offer capabilities to digitize the audio video network and improve quality of experience.⁶</p>	<ul style="list-style-type: none"> Improve productivity Improve customer experience Increase revenue
	<p>9. Built for tomorrow's workspace. Cisco switches come with Power over Ethernet and efficient energy management. Customers can power IP phones and wireless access points with their switches to simplify cabling and save on energy costs. We also offer fanless, quiet models optimized for open workspace.⁷</p>	<ul style="list-style-type: none"> Simplify IT Improve collaboration 60% energy cost savings²
End-to-End	<p>10. End-to-end solutions. Cisco has the most comprehensive portfolio in the networking industry to help connect, collaborate, compute, and protect your customer's business.</p>	<ul style="list-style-type: none"> Reduce resources and time spent integrating multiple vendors' solutions
