AI & teknologisk
innovation

A blurred background image of a modern office interior. The office features large glass walls and partitions, with warm, golden-yellow light emanating from the ceiling and reflecting off the surfaces. Several ergonomic office chairs are visible in the foreground and middle ground, arranged in a workspace. The overall atmosphere is professional and contemporary.

Säker AI-redo infrastruktur

86%

Utsattes för AI-relaterade säkerhetshot förra året

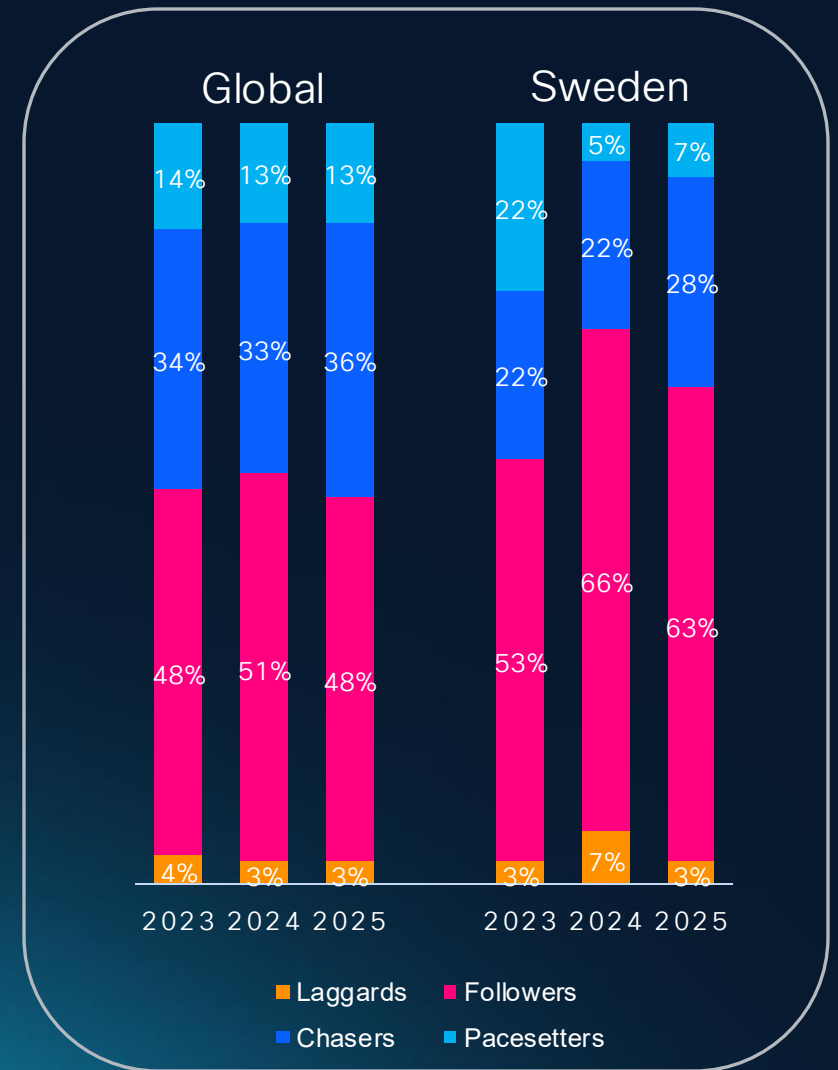

4%

Organisationer som är helt redo för dagens hot

Source: Cisco 2025 Cybersecurity Readiness Index

Cisco AI Readiness Index 2025

- Readiness is flat — only **13%** (again) are fully AI-ready. Sweden at **7%** (and 2/3 are followers/laggards)
- Urgency and ambition aren't translating into execution.
- The most AI-ready are more confident, more secure, and generating more value.

Sweden Country Digital Acceleration program

Fokusområden

“WiFi-Boost” för digitaliseringen av Svenska skolor

“Resfria möten” för att öka effektiviteten

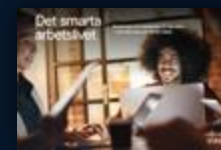

“Cyber Boost” stötta en nationell SOC samt utbildning av Generaldirektörer

“Smart kritisk nationell infrastruktur” för att utveckla smart grid samt resilient infrastruktur som tjänst (RlaaS)

Vägledningar

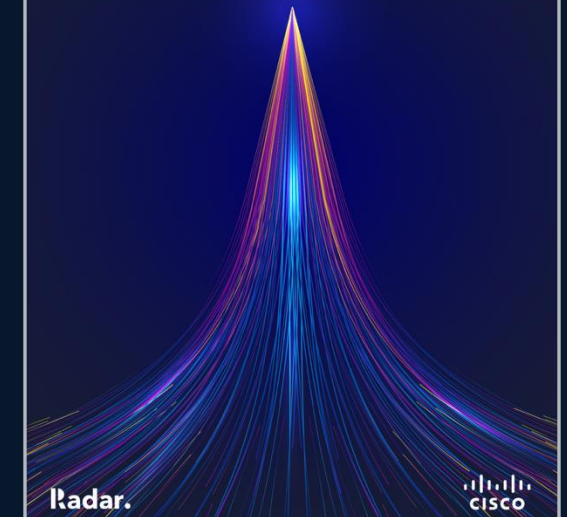

Säker kommun
Säker region
Smart samverkan
Cybersäkerhetslagen & NIS2
Säkra smarta elnät
