

CiscoWorks Network Compliance Manager 1.3

PB442921

Product Overview

CiscoWorks Network Compliance Manager (NCM) tracks and regulates configuration and software changes throughout a multivendor network infrastructure. It provides superior visibility into network changes and can track compliance with a broad variety of regulatory, IT, corporate governance, and technology requirements. CiscoWorks NCM helps IT staff identify and correct trends that could lead to problems such as network instability and service interruption. Table 1 lists the primary features of CiscoWorks NCM.

Table 1. CiscoWorks NCM 1.3 Features

Feature	Benefits
Simplified licensing	Simplifies the ordering, licensing and install process enabling customers to get their NCM systems up and running more easily
Enhanced software image management	Enables automated software image management with recommendation, validation, synchronization, automatic image download, and automatic rollback on error
End-of-sale/end-of-life reporting and alerting	Provides up to date information on devices and modules that have reached end-of-sale/end-of-life status in the network (currently supports Cisco® devices only)
Interface provisioning and management	Facilitates speedy and accurate interface management through sophisticated interface search and provisioning capabilities
Policy and compliance manager enhancements	Provides ability to automate compliance on an “as-running” basis as well as the traditional “as-configured” basis
Usability improvements for policy rule creation	Dramatically reduces the need for regular expressions for creating rules
Advanced scripting enhancements	Provides the ability to mask sensitive information when using command scripts
Support for Simple Network Management Protocol version 3 (SNMPv3) and IPv6	Facilitates configuration and change management of the latest secure and cutting edge networks
Search and filtering enhancements	Facilitates searching and filtering on policies, compliance, and interfaces
Device and configuration management enhancements	Provides users a lot more flexibility and ease of use in device configuration
Network autodiscovery	Eliminates manual administration of devices
Network diagram	Eases troubleshooting
Configuration and change management	<ul style="list-style-type: none"> • Increases uptime • Eases audit of configuration changes • Improves control of network resources
Audit and compliance management	<ul style="list-style-type: none"> • Includes expansive modeling of regulatory, corporate, IT, and technology policies • Provides visibility into network’s compliance with policies • Identifies critical risks and violations • Prioritizes triage of compliance violations
Integration with CiscoWorks applications	<ul style="list-style-type: none"> • Includes cross-launch capabilities between CiscoWorks NCM and other CiscoWorks applications such as CiscoWorks LAN Management Solution (LMS), Home Page, Device Center, and CiscoView • Allows user to run scripts to register with CiscoWorks servers • Helps ensure consistency of network inventory database using CiscoWorks Device Credential Repository (DCR)—for example, device list and credentials may be imported into CiscoWorks NCM

Security management	<ul style="list-style-type: none"> Facilitates role-based access control and lock down Includes centralized access control list (ACL) management
Advanced workflow and approvals	Facilitates real-time process enforcement
Multivendor support	<ul style="list-style-type: none"> Supports thousands of device models or versions from Cisco and 35 other vendors Frequent and easy-to-deploy device driver releases
Connectors with third-party software	Includes connectors with HP OpenView NNM, Remedy AR, Smarts InCharge, HP Service Desk, and CA Unicenter
Alert Center	Subscription service that complements the NCM software offering. CiscoWorks NCM Alert Center content, such as security compliance policies in NCM format and product extensions, is uploaded into CiscoWorks NCM Alert Center and is hosted at a Cisco.com URL for subscribers to download into CiscoWorks NCM.
