Overview

EOL15763

Cisco announces the end-of-sale and end-of-life dates for the Cisco Automation SPNA Product-Only Subscriptions. The last day to order the affected product(s) is May 13, 2026. The last day to renew or add to an existing subscription is May 13, 2026. Customers with active service contracts and subscriptions (as applicable) will continue to receive support from the Cisco Technical Assistance Center (TAC) as shown in Table 1 of the EoL bulletin. Table 1 describes the end-of-life milestones, definitions, and dates for the affected product(s). Table 2 lists the product part numbers affected by this announcement. For customers with active and paid service and support contracts and subscriptions (as applicable), support will be available under the terms and conditions of customers' service contract and subscription.

End-of-life milestones

Table 1. End-of-life milestones and dates for the Cisco Automation SPNA Product-Only Subscriptions

Milestone	Definition	Date
End-of-Life Announcement Date	The date the document that announces the end-of-sale and end-of-life of a product is distributed to the general public.	November 12, 2025
End-of-Sale Date *	The last date to order the product through Cisco point-of-sale mechanisms. The product is no longer for sale after this date.	May 13, 2026
End of Change/Renewal Date * Subscription	The last date to Renew or Add to an existing subscription.	May 13, 2026
Last Date of Support ** Subscription	The last date to receive applicable subscription entitlements, service and support for the product as entitled by active subscriptions and service contracts(as applicable) or by warranty terms and conditions. After this date, all subscription and support services for the product are unavailable, and the product becomes obsolete.	May 31, 2029

* The Quantity Adjustment Rule determines how subscription quantities are adjusted during the Auto-Renewal process for the migration product.

The rule offers several adjustment methods:

- Same as Current: Retains the current subscription quantity.
- Multiply: Multiplies the subscription quantity by a specified value.
- Divide: Divides the subscription quantity by a specified value.
- Add: Adds a specified value to the subscription quantity.
- Exact Value: Sets a fixed, predefined quantity.

** The Adjustment Value is the numeric input used with the Quantity Adjustment Rule to determine how subscription quantities are modified when Auto Renewal is Enabled.

*** The Auto Renewal indicator shows if Auto Renewal is enabled for the EOL product. However, Auto Renewal will only occur if the customer opted for it during the initial purchase and no manual intervention is required for provisioning. Without this prior selection, the product will not renew automatically, regardless of the Auto Renewal status.

Product migration options

The Cisco Automation SPNA Product-Only Subscriptions are replaced by Cisco Automation SPNA Subscriptions with Embedded Support.
