

# Cisco SX10 Quick Set

## Video-Enable Your Small Collaboration Spaces

The Cisco SX10 Quick Set is an all-in-one unit designed to video-enable your small collaboration spaces, offering great affordability for small-to-medium businesses just starting out with video conferencing. With the SX10, you can also extend video conferencing pervasively throughout your enterprise. The SX10 supports cloud registration to Cisco Webex for even faster and more cost-effective deployment<sup>1</sup>.

This low-cost, high-quality unit combines camera and codec into a single, compact device that is mounted over your standard flat-panel display and connects through a discreet single-cable system for Power over Ethernet (PoE). High-definition video is enabled with 1080p30 resolution, while an industry-leadership wide-angle field of view provides the best overview even in small spaces. Support for Cisco Intelligent Proximity allows you to use your iOS and Android devices to wirelessly control the SX10 as well as receive shared content for richer collaboration. Wireless content sharing is also possible from your laptop or PC.

High quality, simplicity, and affordability come together in the SX10 Quick Set to create a practical and powerful business class solution for video ubiquity (Figures 1 through 3).

## Features

The primary features of the Cisco SX10 Quick Set follow:

- Optimal definition up to 1080p30 with content sharing at 1080p5<sup>2</sup>
- Wide-angle 83° horizontal FOV with 5x zoom
- Supports Cisco Intelligent Proximity for content sharing to mobile devices and wireless sharing from laptops (Macs and PCs)<sup>2</sup>
- Wireless control of the system is also enabled with Intelligent Proximity
- Easily control room peripherals such as lights, room dividers, curtains, directly from the Cisco Touch 10 control unit (optional) through customizable API<sup>1</sup> (requires external third-party control system processor)
- Participate in white boarding sessions from Cisco Webex Teams app; receive notification of shared white board content on the Touch 10 (supported on cloud-registered devices)
- Simplified meeting-join experience with One Button to Push (OBTP) for scheduled devices in Cisco Webex meetings, whether registered on-prem or to the cloud
- Ready-to-use unit with Power over Ethernet (PoE)
- Integrated microphone
- Energy efficient with low consumption (EU Class B)
- Registers with Cisco<sup>®</sup> Unified Communications Manager (UCM) and Cisco TelePresence Video Communication Server (VCS)
