

# Cisco Finesse 8.5

## Product Overview

Cisco® Finesse is the next-generation agent and supervisor desktop for Cisco Unified Contact Center Enterprise, providing benefits across a variety of communities that interact with your customer service organization. It is designed to provide a collaborative experience that improves the customer experience by enhancing customer service representative experience.

For IT professionals, Cisco Finesse offers smooth integration with the Cisco Collaboration portfolio. It is standards-compliant, and offers low cost of customization of the agent and supervisor desktops.

## Business Value

The customer service group in your business or organization can handle thousands of inquires from customers and prospects every day. It is up to your customer service representatives to quickly and efficiently respond with the information requested to meet the needs of the person looking for information.

To operate efficiently and effectively, customer service representatives in your organization need to employ numerous different applications and have immediate access to a wealth of information. In the course of responding to your customers, representatives constantly switch between applications when searching for information. This process takes time - time that your customers spend waiting.

Cisco Finesse meets this challenge by creating a personalized desktop work environment using a web-based interface. The Cisco Finesse desktop provides a single, customizable cockpit that enables the customer care representatives to take advantage of multiple assets and information sources to assist customers.

Fast, efficient, accurate service results in happy, satisfied, and loyal customers who will return to do business with you again. And it saves operational costs for your business.

## Features and Benefits

The Cisco Finesse agent and supervisor desktop for Cisco Unified Contact Center Enterprise integrates traditional contact center functions into a thin-client desktop. A critical characteristic is that every desktop is 100-percent browser-based and implemented through a Web 2.0 interface - no client-side installations are required, thus reducing total cost of ownership (TCO). Cisco Finesse also provides a Web 2.0 software development kit (SDK) and gadgets to enable developers to quickly get started with implementing in your environment.

Table 1 lists the features and benefits of Cisco Finesse 8.5.

**Table 1.** Features and Benefits of Cisco Finesse 8.5

Feature	Benefits
<b>Product Baseline Features</b>	
<b>Thin-client gadget-based desktop</b>	<ul style="list-style-type: none"> <li>• Enables desktop development using industry standards, providing an easily customizable desktop user interface for Cisco Unified Contact Center Enterprise agents and supervisors.</li> <li>• Offers contact center agents and supervisors access to the functions they need through OpenSocial gadgets, enabling enterprises to implement a completely thin contact center desktop with all the power and customization capabilities of traditional thick-client applications.</li> </ul>
