

Technical Product Documentation Change for Cisco Transceiver Modules: (From Paper to CD)

PB513918

In alignment with Cisco's green vision and customer feedback, the Transceiver Module Group will stop the shipment of technical product documentation in paper version along with parts ordered as spares. Instead, a CD copy of technical product documentation will be provided to customers along with the products.

Major characteristics and benefits of this shipping method change include:

- One CD provided instead of one paper copy per part shipped
- CD containing technical product documentation for all Cisco transceiver modules (from TMG)
- Smaller and more environmental-friendly packaging
- Conserve resources
- CD is portable and durable

This initiative will be deployed between late March and April 2009.
