End-of-Sale Date and End of Maintenance Date	The last date to order the product through Cisco point-of-sale mechanisms. The product is no longer for sale after this date. This also marks the end of engineering, maintenance rebuilds, and software fixes through rebuilds of R3.5.x. After this date, maintenance rebuilds and software-fix support will be provided only through rebuilds of XR 3.6.x or later. Refer to guidelines for Cisco IOS XR software, see link below.	May 11, 2009
Last Ship Date: OS SW	The last-possible ship date that can be requested of Cisco and/or its contract manufacturers. Actual ship date is dependent on lead time.	August 10, 2009

Engineering maintenance rebuilds and software fix-support for R3.5.x will be provided only through migration to rebuilds of XR 3.6.x or later releases. Critical security and vulnerability fixes will be provided according to the following terms and conditions: Cisco TAC will first use commercially reasonable efforts to work with the customer to determine the locality of impact and find a workaround for the problem. If an alternative workaround is not possible during the extended period of support, then Cisco TAC will make commercially reasonable efforts to provide a "bug fix" solution in R3.5.x, or in a later supported software release to remedy the problem. If despite commercially reasonable efforts Cisco is unable to provide a software-based solution, it may be necessary for the customer to remove or upgrade the affected software-based systems to correct the problem.
