Overview

EOL15864

Cisco announces the end-of-sale and end-of-life dates for the Cisco WAN Automation Engine. The last day to order the affected product(s) is November 15, 2026. The last day to renew or add to an existing subscription is May 15, 2027. Customers with active service contracts and subscriptions (as applicable) will continue to receive support from the Cisco Technical Assistance Center (TAC) as shown in Table 1 of the EoL bulletin. Table 1 describes the end-of-life milestones, definitions, and dates for the affected product(s). Table 2 lists the product part numbers affected by this announcement. For customers with active and paid service and support contracts and subscriptions (as applicable), support will be available under the terms and conditions of customers' service contract and subscription.

End-of-life milestones

Table 1. End-of-life milestones and dates for the Cisco WAN Automation Engine

Milestone	Definition	Date
End-of-Life Announcement Date	The date the document that announces the end-of-sale and end-of-life of a product is distributed to the general public.	May 19, 2026
End-of-Sale Date*	The last date to order the product through Cisco point-of-sale mechanisms. The product is no longer for sale after this date.	November 15, 2026
Last Ship Date: Subscription	The last-possible ship date that can be requested of Cisco and/or its contract manufacturers. Actual ship date is dependent on lead time.	November 30, 2026
End of SW Maintenance Releases Date: Subscription	The last date that Cisco Engineering may release any final software maintenance releases or bug fixes. After this date, Cisco Engineering will no longer develop, repair, maintain, or test the product software.	May 15, 2027
End of New Service Attachment Date: Subscription	For equipment and software that is not covered by a service-and-support contract, this is the last date to order a new service-and-support contract or add the equipment and/or software to an existing service-and-support contract.	May 15, 2027
End of Service Contract Renewal Date: Subscription	The last date to extend or renew a service contract for the product.	May 15, 2027
End of Change/Renewal Date*: Subscription	The last date to Renew or Add to an existing subscription.	May 15, 2027

Milestone	Definition	Date
Last Date of Support**: Subscription	The last date to receive applicable subscription entitlements, service and support for the product as entitled by active subscriptions and service contracts(as applicable) or by warranty terms and conditions. After this date, all subscription and support services for the product are unavailable, and the product becomes obsolete.	May 31, 2028

*The requested subscription start date needs to be on or before the End of Sale Date for new subscriptions, and on or before the End of Change/Renewal Date for subscription changes and renewals.

**The projected subscription term end date for new or changing subscriptions needs to be on or before the Last Date of Support.

Product Migration Options

General End-of-Sale and End-of-Life Guidelines End-of-Sale Product Part Number: All Cisco WAN Automation Engine versions and part numbers are affected by this announcement including WAE 7.6 Migration Options.

Cisco Crosswork Planning is designed as our next-generation network planning and optimization platform with AI-driven predictive analytics, advanced simulation, scalable architecture, and automation capabilities that surpass the sunseting Cisco WAE, making it better suited for modern complex network environments. For more information Cisco Crosswork Planning Data sheet - <https://www.cisco.com/c/en/us/products/cloud-systems-management/crosswork-network-automation/crosswork-planning-ds.html>

Migration Product Description: Cisco Crosswork Planning

Migration PID: SPAUTO-CP

*The Quantity Adjustment Rule determines how subscription quantities are adjusted during the Auto-Renewal process for the migration product.

The rule offers several adjustment methods:

- Same as Current: Retains the current subscription quantity.
- Multiply: Multiplies the subscription quantity by a specified value.
- Divide: Divides the subscription quantity by a specified value.
- Add: Adds a specified value to the subscription quantity.
- Exact Value: Sets a fixed, predefined quantity.

**The Adjustment Value is the numeric input used with the Quantity Adjustment Rule to determine how subscription quantities are modified when Auto Renewal is Enabled.

***The Auto Renewal indicator shows if Auto Renewal is enabled for the EOL product. However, Auto Renewal will only occur if the customer opted for it during the initial purchase and no manual intervention is required for provisioning. Without this prior selection, the product will not renew automatically, regardless of the Auto Renewal status.
