Product Migration Options

The Cisco Secure Access Control System (ACS) product functionality has been implemented in the Cisco Identity Services Engine (ISE) product line. Customers with only Access Control System installations interested in migrating to ISE may purchase a migration bundle with product part number ACS-ISE-MIG-M or ACS-ISE-MIG-S, on sale until August 31, 2017. Customers who have maintained parallel installations of both ACS and ISE are able to simplify their security solution by using the functionality of their ISE installment. Customers with both ACS and ISE installations are not eligible for the migration bundles.

Migrate Now for Less! Existing ACS customers can enjoy up to 63% off Cisco ISE hardware and software license bundles. Take advantage of this limited time promotion. Download the Cisco ISE Ordering Guide at: http://www.cisco.com/c/dam/en/us/products/collateral/security/identity-services-engine/guide_c07-656177.pdf.

Access Control System customers that would like to compare the functionality of their ACS installment with ISE functionality may review the ISE Ordering Guide at: http://www.cisco.com/c/dam/en/us/products/collateral/security/identity-services-engine/guide_c07-656177.pdf.

Customers may be able to use the Cisco Technology Migration Program (TMP) where applicable to trade-in eligible products and receive credit toward the purchase of new Cisco equipment. For more information about Cisco TMP, customers should work with their Cisco Partner or Cisco account team. Cisco Partners can find additional TMP information on Partner Central at http://www.cisco.com/web/partners/incentives_and_promotions/tmp.html.

Simplify migrating from ACS to ISE in three easy phases—pre-migration, migration, and post-migration. Each of these phases delivers the expertise, support, and experience necessary to quickly implement ISE on your network. Learn more about this service at: <http://www.cisco.com/c/dam/en/us/products/collateral/se/services/at-a-glance-c45-731754.pdf>.

Customers may be able to continue to purchase the Cisco Secure Access Control System through the Cisco Certified Refurbished Equipment program. Refurbished units may be available in limited supply for sale in certain countries on a first-come, first-served basis until the Last Date of Support has been reached. For information about the Cisco Certified Refurbished Equipment program, go to: <http://www.cisco.com/go/eos>.

Service prices for Cisco products are subject to change after the product End-of-Sale date.

The Cisco Takeback and Recycle program helps businesses properly dispose of surplus products that have reached their end of useful life. The program is open to all business users of Cisco equipment and its associated brands and subsidiaries. For more information, go to:
