Product migration options

Current Webex Support Center customers should transition to Webex Meetings for remote desktop control. For features like queueing, agent and supervisor features and click-to-connect chat capabilities, customers should consider the Cisco SolutionsPlus offer [Imagicle](#), [UCX Engage](#) or Webex Contact Center as an add-on to Webex Meetings. If customers choose to use a third-party solution, all terms and conditions of that use are between the customer and that third party.
