Overview

EOL15406 - Amended

Cisco announces the end-of-sale and end-of-life dates for the Cisco Wireless Embedded Wireless Controller (EWC) on Access Point. The last day to order the affected product(s) is November 29, 2024. Customers with active service contracts will continue to receive support from the Cisco Technical Assistance Center (TAC) as shown in Table 1 of the EoL bulletin. Table 1 describes the end-of-life milestones, definitions, and dates for the affected product(s). Table 2 lists the product part numbers affected by this announcement. For customers with active and paid service and support contracts, support will be available under the terms and conditions of customers' service contract.

Cisco is announcing the end of support for the Embedded Wireless Controller (EWC) running on the C91xx Wi-Fi 6 access points. The final IOS-XE software supporting this will be IOS-XE 17.15.x. EWC running on Catalyst switches in Software Defined Access (SDA) mode will continue to be supported and is not affected by this bulletin.

End-of-life milestones

Table 1. End-of-life milestones and dates for the Cisco Wireless Embedded Wireless Controller (EWC) on Access Point

Milestone	Definition	Date
End-of-Life Announcement Date	The date the document that announces the end of sale and end of life of a product is distributed to the general public.	May 31, 2024
End-of-Sale Date: HW, OS SW	The last date to order the product through Cisco point-of-sale mechanisms. The product is no longer for sale after this date.	November 29, 2024
Last Ship Date: HW, OS SW	The last-possible ship date that can be requested of Cisco and/or its contract manufacturers. Actual ship date is dependent on lead time.	February 27, 2025
End of SW Maintenance Releases Date: HW, OS SW	The last date that Cisco Engineering may release any final software maintenance releases or bug fixes. After this date, Cisco Engineering will no longer develop, repair, maintain, or test the product software.	March 31, 2027
End of Vulnerability/Security Support: HW	The last date that Cisco Engineering may release a planned maintenance release or scheduled software remedy for a security vulnerability issue.	July 31, 2028
End of Routine Failure Analysis Date: HW	The last-possible date a routine failure analysis may be performed to determine the cause of hardware product failure or defect.	November 29, 2025
End of New Service Attachment Date: HW, OS SW	For equipment and software that is not covered by a service-and-support contract, this is the last date to order a new service-and-support contract or add the equipment and/or software to an existing service-and-support contract.	November 29, 2025
End of Service Contract Renewal Date: HW, OS SW	The last date to extend or renew a service contract for the product.	February 24, 2029

Milestone	Definition	Date
Last Date of Support: HW, OS SW	The last date to receive applicable service and support for the product as entitled by active service contracts or by warranty terms and conditions. After this date, all support services for the product are unavailable, and the product becomes obsolete.	November 30, 2029

HW = Hardware OS SW = Operating System Software App. SW = Application Software

Note: The above table is aligned to the planned support timelines for the 17.15.x software. The access points in this bulletin can be converted to lightweight (or CAPWAP mode) access points. If converted these access points will continue to be supported on the Wireless LAN Controller (WLC) beyond the 17.15.x release, until dates specified in the EoS/EoL for the non-EWC version (to be announced at a later date). To receive support, a valid support contract is required for the WLC.

Product migration options

There is no replacement available for the Cisco Wireless Embedded Wireless Controller (EWC) on Access Point at this time.

There is no replacement available for the Cisco Wireless Embedded Wireless Controller (EWC) on Access Point at this time. Customers who have deployed EWC-based access points are encouraged to convert them to lightweight (CAPWAP) mode and use a physical C9800-L wireless LAN controller (WLC) or virtual C9800-CL controller ("Ultralow" profile) beyond the support dates mentioned in product bulletin. For future deployment customers are encouraged to deploy the Cisco Meraki native cloud offerings.

Customers may be able to use the Cisco Technology Migration Program (TMP) where applicable to trade-in eligible products and receive credit toward the purchase of new Cisco equipment. For more information about Cisco TMP, customers should work with their Cisco Partner or Cisco account team. Cisco Partners can find additional TMP information on Partner Central at

https://www.cisco.com/web/partners/incentives_and_promotions/tmp.html.

Customers may be able to continue to purchase the Cisco Wireless Embedded Wireless Controller (EWC) on Access Point through the Cisco Refresh (certified remanufactured) program. Remanufactured units may be available in limited supply for sale in certain countries on a first-come, first-served basis until the Last Date of Support has been reached. For information about the Cisco Refresh program, go to:

<https://www.cisco.com/c/en/us/products/remanufactured.html>.

The Cisco Takeback and Recycle program helps businesses properly dispose of surplus products that have reached their end of useful life. The program is open to all business users of Cisco equipment and its associated brands and subsidiaries. For more information, go to:

https://www.cisco.com/web/about/ac227/ac228/ac231/about_cisco_takeback_recycling.html.

For more information

For more information about the Cisco End-of-Life Policy, go to: <https://www.cisco.com/c/en/us/products/eos-eol-policy.html>.

For more information about the Cisco Product Warranties, go to: <https://www.cisco.com/c/en/us/products/warranty-listing.html>.

To subscribe to receive end-of-life/end-of-sale information, go to: <https://cway.cisco.com/mynotifications>.
