Compare Umbrella Insights and Newer Umbrella Subscription Features

Contents

Introduction

This document describes the differences between the Umbrella Insights package and newer Umbrella subscriptions using a feature comparison matrix.

Overview

This article is meant to provide a simple side-by-side comparison of the Umbrella Insights package to the newer Umbrella subscriptions. This comparison does not provide an exhaustive list of all features but aims to cover the most significant differences. Use this information to determine which features each subscription includes.

Feature Comparison Definitions

- **Yes:** The package fully includes this feature.
- **No:** The package does not include this feature.
- **Add-On:** You can include this feature in the subscription as an additional purchase. It is not part of the base subscription.
- **Partial:** The subscription includes some components of this feature. Contact your Cisco sales representative for details.
- **Depends:** The subscription might include this feature based on specific conditions. Consult your Cisco sales representative for clarification.
