## Introduction

This document describes the release note for the Umbrella Chromebook client app 1.3.2

## Release Notes

Umbrella Chromebook client App version 1.3.2 has been released on 1 October, 2019.

This release of the app includes these changes:

1. A case where IP address information was missing from the activity search has been fixed.
2. Based on the new [Google user data policy](#), permissions that were not used by the Chromebook client app have been removed. These include "notifications" and "fileSystem".
