

Export Umbrella Report Data Updates to CSV from Activity Search

Contents

[Introduction](#)

[Overview](#)

Introduction

This document describes updates to exporting report data to CSV from Activity Search in Umbrella.

Overview

Umbrella continues to improve CSV export functionality for Activity Search reports. Some reports enable you to export query results to CSV format. You can use this data to create additional reports and graphs by importing it into other tools.

CSV Heading Changes

The updated CSV headings are:

- "Domain" changed to "Destination"
- "Policy Identity" changed to "Policy or Ruleset Identity"
- "Policy Identity Type" changed to "Policy or Ruleset Identity Type"
