

Configure Firewall Schedule on RV180 and RV180W

Objectives

A firewall schedule can be created to apply the firewall during certain days and times. This feature can be useful if you want to restrict certain network traffic at certain times. The schedules can be applied all day or for certain times, and can be put into effect on any days of the week.

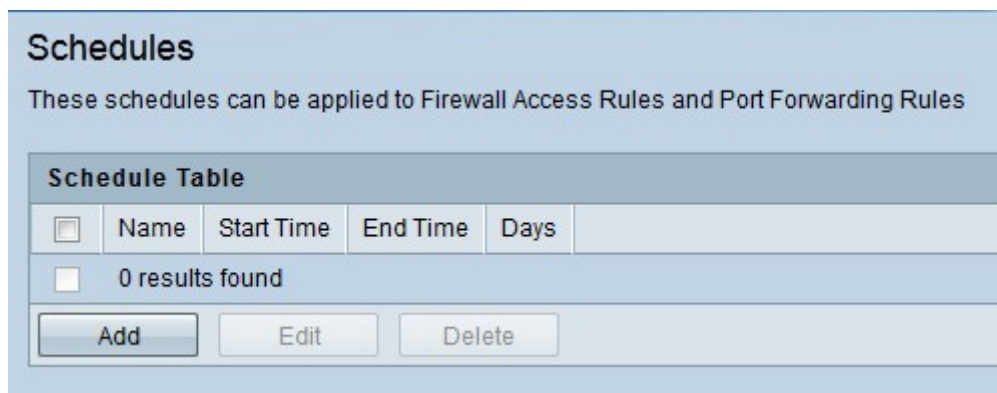

The objective of this document is to explain how to add a firewall schedule on the RV180 and RV180W.

Applicable Devices

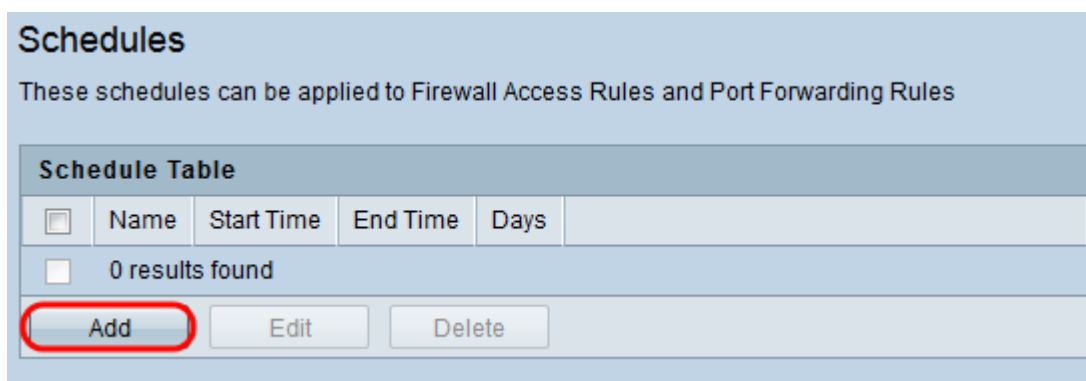

- RV180
- RV180W

Firewall Schedule

Step 1. In the GUI, choose **Firewall > Advanced Settings > Schedules**. The *Schedules* page opens:

Step 2. Click **Add** to add a new schedule.

The *Add/Edit Schedules Configuration* window opens.

Schedules

Add / Edit Schedules Configuration

Name:

Time

All Day

Start Time: :
HH mm

End Time: :
HH mm

Repeat

Everyday

Sun Mon Tue Wed Thu Fri Sat

Step 3. Enter a name for the schedule in the *Name* field.

Schedules

Add / Edit Schedules Configuration

Name:

Time

All Day

Start Time: :
HH mm

End Time: :
HH mm

Repeat

Everyday

Sun Mon Tue Wed Thu Fri Sat

Step 4. Choose the time period you want the schedule to apply for in the *Time* area.

Schedules

Add / Edit Schedules Configuration

Name

Time

All Day

Start Time :
HH mm

End Time :
HH mm

Repeat

Everyday

Sun Mon Tue Wed Thu Fri Sat

- All Days — The schedule will be applied every day.
- Specific Times — The schedule will only be applied to the times specified in the **Start Time** and **End Time** drop-down lists.

Step 5. Choose when to repeat the new schedule to apply.

Schedules

Add / Edit Schedules Configuration

Name

Time

All Day

Start Time :
HH mm

End Time :
HH mm

Repeat

Everyday

Sun Mon Tue Wed Thu Fri Sat

- Everyday — The schedule will be applied all days.
- Specific Days — The schedule will only be applied to the days that are checked.

Step 6. Click **Save**.
