

Log in to Voiceview Express on the SPA300/500 Series IP Phones Using Soft Keys

Objective

Voiceview Express allows users to browse, listen, send messages, and manage their voicemail messages from the phone interface.

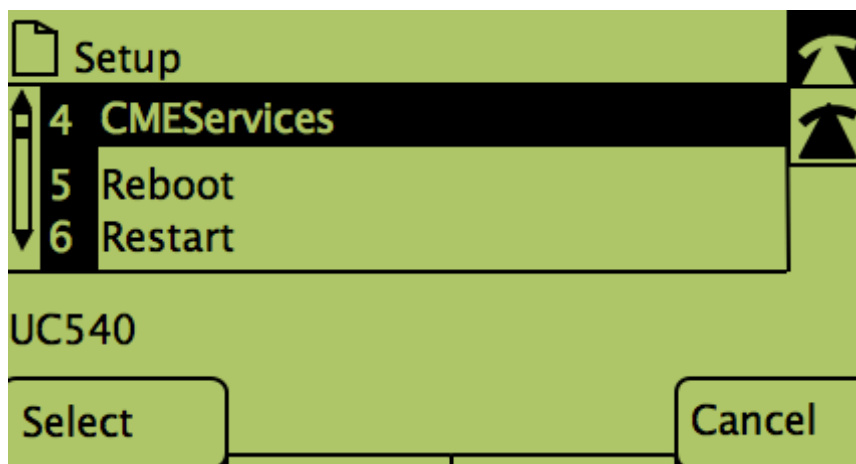

This document explains how to log in to the voiceview express on the SPA300 and SPA500 Series IP phones using the soft key buttons.

Applicable Devices

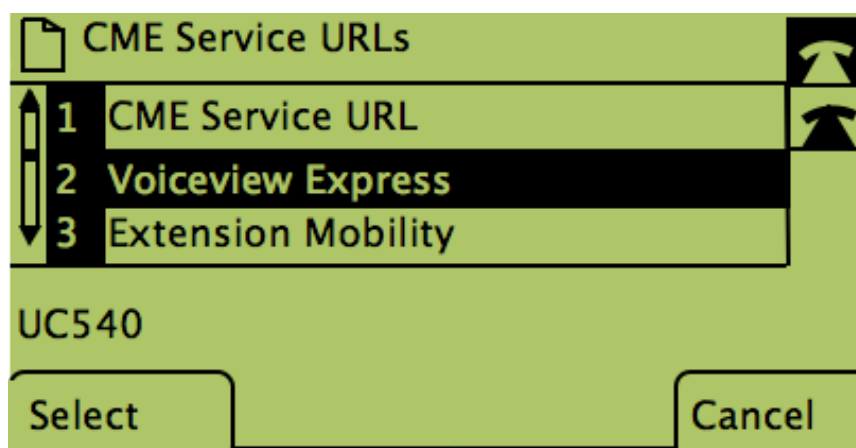

- SPA300 Series IP Phones
- SPA500 Series IP Phones

Log In to Voiceview Express

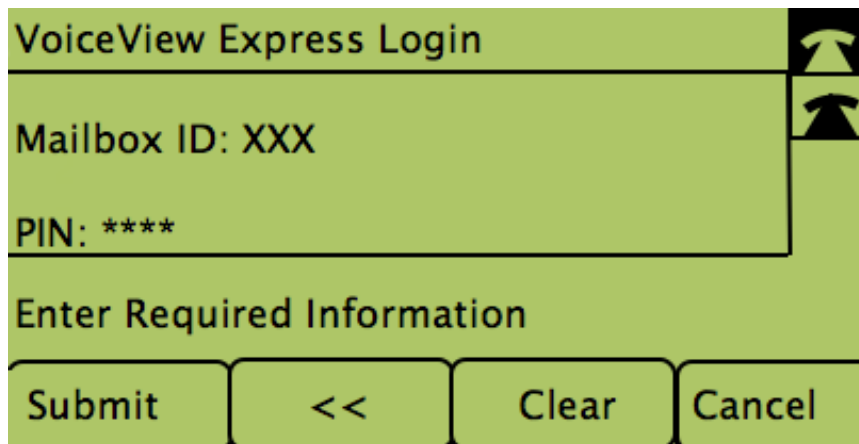

Step 1. Push the Setup button.

Step 2. Push the soft key for CME Services.

Step 3. Push the soft key for Voiceview Express.

The image shows a login screen for VoiceView Express. It has a light blue background with a dark blue header bar containing the text "VoiceView Express Login" and a soft key icon (a white arrow pointing up). Below the header, there are two input fields: "Mailbox ID: XXX" and "PIN: ****". Below these fields is a section titled "Enter Required Information". At the bottom, there are four buttons: "Submit", "<<", "Clear", and "Cancel".

Step 4. Enter the mailbox ID and PIN in the fields.

Step 5. Push the soft key under Submit.
