Introduction

This document describes 10 quick steps to configure a CUCME/CME (Cisco Unified Communications Manager Express)

Contributed by Cesar Alonso and Cisco TAC Engineers.

Prerequisites

Requirements

• IOS router
• IP Phones
• Connection to the PSTN (Optional)

Components Used

• Any CUCME version
• Any Ip phone

The information in this document was created from the devices in a specific lab environment. All of the devices used in here started with cleared (default) configurations. If your network is live, make sure that you understand the potential impact of any command.
