NUTANIX KUBERNETES PLATFORM (NKP)

Step 20.

The screenshot shows the 'NUTANIX SOFTWARE' configuration interface. At the top, a green box labeled 'NUTANIX SOFTWARE' has a blue arrow pointing to a blue box labeled 'NTX-SW'. Below this, a blue arrow points to a green box labeled 'NCI'. Another blue arrow points to a green box labeled 'NCM'. A third blue arrow points to a green box labeled 'NUS'. The interface includes a 'Configuration Summary' section on the left, a 'Requested Terms and Billing' section, and a 'Configuration Summary' section on the right. The 'Configuration Summary' section on the right is divided into two parts: 'STR' (Starter) and 'PRO' (Professional). The 'STR' section lists various SKUs and their descriptions, including 'NT-NCI-STR-PR', 'NT-NCI-STR-MC', 'NT-NCI-STR-AP', 'NT-NCI-STR-AM', 'NT-NCI-STR-FP', and 'NT-NCI-STR-FM'. The 'PRO' section lists various SKUs and their descriptions, including 'NT-NCI-PRO-PR', 'NT-NCI-PRO-MC', 'NT-NCI-PRO-AP', and 'NT-NCI-PRO-AM'. The interface also includes a 'Total' field showing '\$0.00' and buttons for 'Restore Configuration', 'Cancel', and 'Review Changes'.

Note: The Quantity of NCI or NCI-D or NCM or (NCI and NCM under NCP) or NKP FS License must match with the QTY of Processor Core selected under Servers.

The Quantity of NCI-E, NCM-E, EUC, NCM-U, NAI, NKP, NUS and NDL License can be selected per recommended system requirement.

- Pick a Nutanix Software Product offering at the left
- Pick a License & Support Tier pid & QTY at the right for that specific lic type
- To change Term, Start Date, co-term and others click at the at top next to the 'Requested Terms and Billing'

Step 21.

The screenshot shows the 'NUTANIX SOFTWARE' configuration interface. At the top, a diagram shows 'NTX-SW' pointing to 'NCI', 'NCM', and 'NUS'. Below this, the 'Offer Configuration' section shows 'NTX-SW(Part of HCIX-M8-NTNX-MLB)' with an 'Estimated Lead Time' of 'NA' and a 'Price List' of 'Global Price List (USD)' with a 'Total (USD)' of '0.00'.

The 'Requested Terms and Billing' section is highlighted. It shows 'Requested Start Date' as '25-Jul-2025', 'Requested For' as '36 Months From 25-Jul-2025 To 24-Jul-2028', 'Automatically Renews For' as 'No Auto Renewal', and 'Billing Frequency' as 'Prepaid Term'.

Below this, a blue bar indicates 'REQUESTED FOR 36 Months' with a date range 'From 25-Jul-2025 To 24-Jul-2028'. The 'Requested Start Date' section shows 'Day 25', 'Month Jul', and 'Year 2025' with a red arrow 'a' pointing to the year field. The 'End Date' section shows 'Effective For 36 Months' with a red arrow 'b' pointing to the months field. The 'Automatically Renews On' section shows 'No Auto Renewal' with a red arrow 'b' pointing to the text. The 'Auto Renewal' section shows a toggle switch set to 'Off'. The 'Billing Frequency' section shows 'Prepaid Term' with a red arrow 'b' pointing to the text. At the bottom right, there are 'Cancel' and 'Save Changes' buttons.

- Requested Start Date (RSD) is now dependent on HW Ship Date and will automatically starts when the HW ships. If you change the RSD, the Software will start either on the RSD you picked or the HW Ship Date whichever is later.
- End Date (duration in months) is defaulted to 36 Months, Auto Renewal (on/off) is defaulted to Off and Billing Frequency is defaulted to Prepaid Term. You can still change the setting accordingly.
