**WELCOME**

In your luxury suite, the Cisco Unified IP Phone can be used to control the TVs and to place calls. It has a touch screen, softkeys (which vary depending on the phone model, screen contents, and your site’s implementation), a navigation pad, and a phone keypad.

1. Use the **touch screen** to select the TVs or select a service.

   **TIP:** Press the Services button if services are not displayed.

2. Use the **softkeys** to:
   - Navigate.
   - Mute or unmute all TVs with single touch.
   - Turn on and off all TVs with single touch.

   The **navigation pad** is not used with TV control services in Dynamic Signage Director.

3. Use the **keypad** to dial a phone number or enter a channel number.

4. Use the line buttons to select a phone line (if multiple), speed dial, or go to a defined URL.

5. **SELECTING A SERVICE**

   Touch **HDMI-In Broadcast**.

   **NOTE:** HDMI-In Broadcast is only supported on the SV-4K media player. Order and Album Control are only supported on the Cisco DMP 4310G media player.

6. **SELECTING A DISPLAY**

   The TVs that are associated to the suite appear and are typically identified by name. Touch the label of the TV you want to control.

   **CHANGING THE HDMI-IN CHANNEL**

   To change the streaming channel simply touch another available channel, touching **Off** is not required. By touching another channel, the current channel will stop automatically and the channel just selected will begin streaming.

   **STOPPING THE HDMI-IN CHANNEL**

   Touch **Off** to stop the channel from streaming. In the example above, touch **Off** to stop ChannelEncoder_01 from streaming.

   **NOTE:** In order for the HDMI-In Broadcast channel to appear, you must select the TV.
**ADJUSTING THE VOLUME**
To adjust the volume, touch the following buttons:
- To increase the volume on the selected TV(s).
- To decrease the volume on the selected TV(s).
- To toggle between mute and unmute on the selected TV(s).

**DISPLAYING THE CHANNEL ON TVS**
Once streaming has started, select the TV that you want the HDMI-In Broadcast channel to appear. From the Home screen, touch **TV/Volume**.

Touch the label of the TV you want to control or touch **All**. Touch the desired HDMI-In channel.

**USING ADVANCED FUNCTIONS**
To access advanced functions such as controls for external inputs and closed captioning, touch **Advanced**.

**TV Inputs**
If the TV has been configured to allow external input devices, such as a DVD player or personal computer, the TV inputs list will display a listing of available sources. Touch the desired input.

*Features: Closed Captioning*
Many of the available channels may provide closed captions that can be displayed on the TV. To turn closed captioning on (or off), touch **cc**.

**NOTE:** Depending on your configuration, there might be multiple Closed Captioning options.

**USING SOFTKEYS**
The softkeys on the phone are located at the bottom of the touch screen and provide access to functions, which vary depending on the phone model and screen currently being displayed.

<table>
<thead>
<tr>
<th>Softkey</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Advanced</td>
<td>Access the advanced features (external input, closed captioning) for the selected TV.</td>
</tr>
<tr>
<td>Back</td>
<td>Go back to the previous operational screen.</td>
</tr>
<tr>
<td>Guide</td>
<td>Display the channel guide on the designated TV.</td>
</tr>
<tr>
<td>Home or Close</td>
<td>Return to the home screen (Display Control).</td>
</tr>
<tr>
<td>Keypad</td>
<td>Select a channel by entering a number using the keypad.</td>
</tr>
<tr>
<td>Mute or UnMute</td>
<td>Mute or unmute the volume on all TVs.</td>
</tr>
<tr>
<td>Tv On or Tv Off</td>
<td>Turn power on or off for all TVs.</td>
</tr>
<tr>
<td>More</td>
<td>(9971 only) Displays additional softkeys.</td>
</tr>
