

Preface

This preface describes the audience, organization, and conventions of the *Cisco Wide Area Application Services Monitoring Guide*. It also provides information about how to obtain related information.

Audience

This publication is for experienced system and network administrators who have specific knowledge in the following areas:

- Networking and data communications
- Network security
- Router and switch configuration

Organization

This publication is organized as follows:

Chapter	Description
Chapter 1, “Monitoring WAAS Using WAAS Central Manager”	Describes how to use WAAS Central Manager to monitor your WAAS devices.
Chapter 2, “Monitoring Traffic Interception”	Describes different methods to monitor traffic interception.
Chapter 3, “Monitoring WAAS Using SNMP”	Describes how to use SNMP to monitor your WAAS devices.
Chapter 4, “Monitoring WAAS Using XML API”	Describes how to use WAAS XML API to monitor your WAAS devices.
Chapter 5, “Monitoring WAAS Using Cisco Network Analysis Module”	Describes how to use Cisco Network Analysis to monitor your WAAS devices.

Conventions

This document uses the following conventions:

Item	Convention
Commands and keywords	boldface font
Variables for which you supply values	<i>italic</i> font
Displayed session and system information	screen font
Information you enter	boldface screen font
Variables you enter	<i>italic screen</i> font
Menu items and button names	boldface font
Selecting a menu item in paragraphs	Option > Network Preferences
Selecting a menu item in tables	Option > Network Preferences

Note

Means *reader take note*. Notes contain helpful suggestions or references to material not covered in the publication.

Caution

Means *reader be careful*. In this situation, you might do something that could result in equipment damage or loss of data.

Obtaining Documentation and Submitting a Service Request

For information about obtaining documentation, submitting a service request, and gathering additional information, see the monthly *What's New in Cisco Product Documentation*, which also lists all new and revised Cisco technical documentation, at:

<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>

Subscribe to the *What's New in Cisco Product Documentation* as a Really Simple Syndication (RSS) feed and set content to be delivered directly to your desktop using a reader application. The RSS feeds are a free service and Cisco currently supports RSS version 2.0.
