Determining the Software Version for Cisco cnBR 21.1

You can view the version of the Cisco cnBR components by using the following methods:

- To view the version of the Cisco cnBR cluster component, do the following:
 1. On the Cisco Operations Hub menu, click **cnBR Manager** > **Core Management** > **Core Overview**. The cnBR Clusters pane displays all the available cnBR clusters.
 2. On the Cisco cnBR clusters that are listed, click the **i** icon next to the cluster name. Information regarding the cnBR cluster component and the version are displayed.

cnBR Clusters

Search:

Status	Name	Version	Namespace	Host Name	Username	Operation
✓	cnbr10 i	Version: 21.1			admin ✓	🗑️

Showing 1 to 1 of 1 entries

COMPONENT	VERSION
cloud-infra-app	0.1.0-stable-0106-210319230112-cc0a4b4
cmts-app	0.1.0-stable-00046-20210326055140
