

Caveat List

This chapter describes open severity 1 and 2 caveats and select severity 3 caveats.

The *Open Caveats* section lists open caveats that apply to the current release and may apply to previous releases. A caveat that is open for a prior release and is still unresolved applies to all future releases until it is resolved.

The bug IDs are sorted alphanumerically.

Note The *Caveats* section includes the bug ID and a short description of the bug. For details on the symptoms, conditions, and workaround for a specific caveat you must use the Bug Search Tool.

- [Cisco Bug Search](#), on page 1
- [Open Caveats for Cisco 1x2 / Compact Shelf RPD Software 6.7.1](#), on page 2
- [Resolved Caveats for Cisco 1x2 / Compact Shelf RPD Software 6.7.1](#), on page 2

Cisco Bug Search

Use the [Cisco Bug Search Tool](#) to access open and resolved bugs for a release.

The tool allows you to search for a specific bug ID, or for all bugs specific to a product and a release.

366025

You can filter the search results by last modified date, bug status (open, resolved), severity, rating, and support cases.
