

About this Guide

Revised: December 10, 2013, OL-29110-05

Introduction

This document describes who should read *Cisco Service Control Application for Broadband User Guide*, how it is organized, its document conventions, and how to obtain documentation and technical assistance.

This guide assumes a basic familiarity with the concept of the Service Control solution, the Cisco Service Control Engine (Cisco SCE) platforms, and related components.

Document Revision History

The following Document Revision History table records the changes made to his document.

Table 1 **Document Revision History**

Revision	Cisco Service Control Release and Date	Change Summary
OL-29110-05	Release 4.0.x December 10, 2013	<ul style="list-style-type: none">Added the “Downgrading Protocol Packs” section on page 4-26.
OL-29110-04	Release 4.0.x August 23, 2013	The following sections were updated: <ul style="list-style-type: none">“Traffic Filters” section on page 3-22“How to Add Filter Rules” section on page 10-27“The Advanced Service Configuration Properties” section on page 10-59
OL-29110-03	Release 4.0.x August 08, 2013	<ul style="list-style-type: none">Updated the “How to Add a Subscriber” section on page 11-14.

Table 1 Document Revision History (continued)

Revision	Cisco Service Control Release and Date	Change Summary
OL-29110-02	Release 4.0.x July 19, 2013	<ul style="list-style-type: none"> • Updated the “Installing Protocol Packs” section on page 4-19
OL-29110-01	Release 4.0.x May 27, 2013	<p>First version of this document (new for the release 4.0.x train).</p> <p>Release 4.0.0 updates:</p> <ul style="list-style-type: none"> • “Traffic Filters” section on page 3-22 • “How to Define Hierarchical Settings for a Service” section on page 7-5 • “How to Add Service Elements” section on page 7-12 • “How to Add Zones” section on page 7-36 • “Flavor Types and Parameters” section on page 7-59 • “How to Enable OS Fingerprinting” section on page 7-87 • “How to Manage Usage RDRs” section on page 8-3 • “How to Manage Log RDRs” section on page 8-12 • “How to Set Global Controller Bandwidth for Virtual Links” section on page 9-24 • “How to Add Filter Rules for IPv6 Configuration” section on page 10-34 • “Subscriber Redirect Parameters” section on page 10-47 • “How to Add a Set of Redirection URLs” section on page 10-52 • “Managing Advanced Service Configuration Options” section on page 10-58

Organization

The guide contains the following sections.

Table 2 *Document Organization*

Section	Title	Description
Chapter 1	Cisco Service Control Overview	Provides a general overview of the Cisco Service Control solution.
Chapter 2	System Overview	Provides a functional overview of the Cisco Service Control solution.
Chapter 3	Traffic Processing Overview	Provides a technical overview of the Cisco Service Control solution.
Chapter 4	Getting Started	Guides you through the process of installing or upgrading Cisco SCA BB and describes the concept of the Console as a collection of tools.
Chapter 5	Using the Network Navigator	Explains how to use the Network Navigator to create a model of all devices that are part of the Cisco Service Control solution and how to manage the devices remotely.
Chapter 6	Using the Service Configuration Editor	Explains how to use the Service Configuration Editor to manage service configurations.
Chapter 7	Using the Service Configuration Editor: Traffic Classification	Explains how to configure service configurations to perform traffic classification.
Chapter 8	Using the Service Configuration Editor: Traffic Accounting and Reporting	Explains how to configure service configurations to perform traffic reporting.
Chapter 9	Using the Service Configuration Editor: Traffic Control	Explains how to configure service configurations to perform traffic control.
Chapter 10	Using the Service Configuration Editor: Additional Options	Documents additional, advanced options available in the Service Configuration Editor.
Chapter 11	Using the Subscriber Manager GUI Tool	Explains how to use the Subscriber Manager GUI tool to configure subscribers on the Cisco Service Control Subscriber Manager database.
Chapter 12	Using the Anonymous Group Manager Tool	Explains how to use the Anonymous Group Manager GUI tool to configure the anonymous groups and subscribers in Cisco SCEs.
Chapter 13	Using the Signature Editor	Documents the Signature Editor tool, which can create files for updating protocols in Cisco SCA BB.
Chapter 14	Additional Management Tools and Interfaces	Documents and explains other tools that are available for use with Cisco SCA BB.

Conventions

This document uses the following conventions.

Table 3 **Document Conventions**

Convention	Indication
bold font	Commands and keywords and user-entered text appear in bold font .
<i>italic font</i>	Document titles, new or emphasized terms, and arguments for which you supply values are in <i>italic font</i> .
[]	Elements in square brackets are optional.
{ x y z }	Required alternative keywords are grouped in braces and separated by vertical bars.
[x y z]	Optional alternative keywords are grouped in brackets and separated by vertical bars.
string	A nonquoted set of characters. Do not use quotation marks around the string or the string includes the quotation mark.
courier font	Terminal sessions and information the system displays appear in <i>courier font</i> .
< >	Nonprinting characters such as passwords are in angle brackets.
[]	Default responses to system prompts are in square brackets.
!, #	An exclamation point (!) or a pound sign (#) at the beginning of a line of code indicates a comment line.

Note

Means *reader take note*. Notes contain helpful suggestions or references to material not covered in the manual.

Tip

Means *the following information will help you solve a problem*. The tips information might not be troubleshooting or even an action, but could be useful information, similar to a Timesaver.

Caution

Means *reader be careful*. In this situation, you might perform an action that could result in equipment damage or loss of data.

Timesaver

Means *the described action saves time*. You can save time by performing the action described in the paragraph.

Warning

Means *reader be warned*. In this situation, you might perform an action that could result in bodily injury.

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, submitting a service request, and gathering additional information, see the monthly *What's New in Cisco Product Documentation*, which also lists all new and revised Cisco technical documentation, at:

<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>

Subscribe to the *What's New in Cisco Product Documentation* as a Really Simple Syndication (RSS) feed and set content to be delivered directly to your desktop using a reader application. The RSS feeds are a free service and Cisco currently supports RSS version 2.0.
